REFLECTIONS

**Assalamu alaykum,**

**It is with immense gratitude that I reflect on another year of growth, learning, and community building here at Reflections. Our school is more than just a place of education; it is a place where hearts and minds are nurtured, where values are instilled, and where lifelong bonds are formed. This year has brought its share of challenges, as well as moments of joy. I am continually inspired by the dedication of our students, the support of our families, and the hard work of our staff. I am particularly excited that we inaugurated our swimming pool for middle and senior section students. Insha'Allah, we will see more such inaugurations in the future. As we look back on the memories we have created together, let us also look forward with hope and optimism. May the lessons we have learned and the friendships we have forged sustain us as we embark on new adventures and face new challenges.**

**To the graduating class of 2024, you leave behind a legacy of respect for teachers and exemplary behaviour. You are leaders in every sense. Take the light of faith and excellence you have received from Reflections with you and light up the world with it. I have no doubt that you will go on to achieve great things.**

**To my dearest staff members, thank you for making Reflections what it is today.**

**Wishing you all continued success and happiness.**

**With warmest regards,**

**Fahad Haroon**

# EDITOR'S LETTER OF THANKS

**Dear Reflections Family,**

**Compiling the yearbook for the past two years (this being the third one) has been a most rewarding yet challenging experience.**

**The yearbook in your hands is a little different from previous two years, as this one is theme based giving our young minds a platform to showcase their creativity.**

**The artistic and smooth compilation wouldn't have been possible without the untiring efforts of my valued team members - Mehreen Faraz, Aasma Agha and Sidra tul Muntaha. Ayesha Sultan for her photographic coverage, not to forget our esteemed Principal Mr. Fahad Haroon for his support.**

**Jazak Allah to all my colleagues and management for their cooperation and support all along.**

**I wish these blooming flowers keep adding colour to the yearbook year after year.**

**Any oversights are deeply regretted as the way forward was to be with minimum omissions.**

**Happy Reading !**

**Nazia Asad**

**SRP Reading and Publications, Academic Audit.**

# MESSAGE FROM THE SENIOR LIBRARIAN

**With the grace of Almighty Allah, another exceptional year has come to an end with many achievements, Alhamdulillah!**

**Here, I would like to appreciate my team members, students and teachers for their untiring efforts to make this journey so smooth, joyful and valuable.**

**In addition to our regular reading programmes and events, we introduced few new programmes and organized 2 new events this year:**

- Interschool Megathon Contest**
- Interschool Scrabble Championship 2024 (for females) in collaboration with Pakistan Scrabble Association, which were Alhamdulillah a great success and appreciated by different participating schools.**

**To further motivate our young readers, we awarded badges to the students who achieved the target of 25, 50, 75 and 100 book reviews this year.**

**Wishing all the best to everyone in their future endeavours.**

**Keep Reading and Keep Smiling!**

**Mehreen Faraz**

# MESSAGE FROM THE TARBIVAH INCHARGE

REFLECTIONS

In its unwavering commitment to holistic development, Reflections continues to fortify its Tarbiyah Department with an array of enlightening talks, engaging workshops, and impactful activities aimed at nurturing students into exemplary individuals.

Esteemed speakers Tuanha Ibn Jalil and Aiasha Amir graced our institution with their profound insights and wisdom, inspiring students to embark on a journey of self-discovery, reflection, and service to others. Their talks resonated deeply with our students, encouraging them to uphold Islamic values and principles in all facets of life.

Complementing these talks were a series of workshops meticulously designed to address various aspects of character development. From understanding the importance of personal space to guarding one's tongue, and from cultivating haya (modesty) to raising awareness about the dangers of tobacco and smoking, students were equipped with essential knowledge and practical skills to navigate life's challenges with integrity and resilience. Moreover, workshops on cancer and breast cancer awareness, as well as water conservation by Water Wise, underscored the significance of health, sustainability, and social consciousness in our daily lives.

Beyond the classroom, Reflections organized a plethora of engaging activities aimed at promoting well-being and community involvement. Dental check-ups ensured students' oral health, while Ghusl-e-Mayat sessions instilled a sense of reverence and duty towards Islamic rituals among senior students and teachers alike. The "Salah Tracker" initiative encouraged consistent prayer habits, while incorporating Miswak usage into their daily routines, students not only improved their oral health but also deepened their connection to Islamic traditions and teachings. . Sadqa activities, ration drives, and acts of sharing and kindness exemplified the spirit of compassion and empathy that defines our school community.

Venturing beyond the confines of the school premises, students embarked on transformative trips to various destinations, each imbued with its own lessons and experiences. From beach clean-ups fostering environmental stewardship to visits to the Binte Fatima Old Home, Civil Hospital Children's Ward, SLUT, Indus Hospital, SOS Village, and Ayesha Academy, students encountered diverse communities and gained firsthand insights into social issues, healthcare challenges, and the importance of service and empathy.

# MESSAGE FROM THE PHYSICAL EDUCATION INCHARGE (MALE)

**Dear Readers,**

**As I reflect on another thrilling year of sports at Reflections, I am filled with joy and excitement. The dedication, passion, and sportsmanship displayed by our athletes have made this year truly memorable.**

**I would like to extend my heartfelt gratitude to my coaches, whose guidance and leadership have played a pivotal role in shaping our athletes into the champions they are today.**

**As we turn the pages of this yearbook, let us cherish the memories we've created together and celebrate the triumphs, challenges, and unforgettable moments that have defined this year in sports. With 54 diverse sporting events and 17 trophies secured, our dedication and talent shines brightly. Like last year, we also took our students to domestic sports tour where they stayed at SST Public School Rashidabad Tando Allahyar, Sindh.**

**Another significant initiative which the sports department took this year was to begin professional competitions at the primary section. We believe this will improve sports activities from the grassroots level.**

**Here's to another year of camaraderie, competition, and countless memories, on and off the field.**

**Go Reflections!**

# MESSAGE FROM THE PHYSICAL EDUCATION INCHARGE (FEMALE)

**ALHUMDULLILAH**, This year has been an exhilarating journey for Girls sports in which our girls participated in 60 different sports events for unforgettable championships to remarkable individual performances, the year has left an indelible mark on the Reflections girls sporting landscape. The year also saw the commencement of cricket and badminton for girls and swimming gala for grade 1-2. Let's take a comprehensive look back at the highlights, mile-stones, and memorable moments that defined the sports year.

Our team participated in 10 different inter school games and we secured positions in 09 of them. Apart from this our girls played 03 friendly 29 interclass 14 inter house and 01 Alumni as well.

**HIGHLIGHTS OF THE YEAR** Sindh Taekwondo Championship (11-8) (11-10), 1st All Karachi Girls Gymnastics Championship (11-10) (11-12), Swimming Gala (GRADE 1-GRADE 2), 2nd All Karachi Basketball Tournament (11-15)(11-17).

Along with all these events, we organized workshops inside our school for grooming our teachers.

We have also worked on sports curriculum and students assessments.

It has been a year to remember in the world of Reflections female sports, filled with thrilling moments, extra ordinary achievements and impactful developments both on and off the field.

We hope that **ALLAH** Almighty will bless us with more success in the coming years.

# MESSAGE FROM THE ISLAMIC DEPT. HEAD (MALE)

## REFLECTIONS

As the academic year draws to a close, it's time to reflect on the remarkable progress and achievements within the Islamic Department. As the section head, I am honored to highlight the strides we have made in promoting understanding, engagement, and excellence in Islamic studies.

One of the highlights of this year was our annual Seerah exhibition, a cornerstone event that educates students about the life and teachings of the Prophet Muhammad (peace be upon him). This year, we expanded our focus to include contemporary issues intertwined with Seerah, such as exploring the legacies of Muslim heroes, the history of the Ottoman Empire, and the geopolitical dynamics of Zionism, Israel, and conflicts involving Muslims. Additionally, we delved into Pakistan's advancements in missile technology, fostering discussions that connect past lessons with present realities.

Participation in external events also showcased the talent and dedication of our students. At the LUMS Religious Festival, our boys excelled in Qirat and debate competitions, demonstrating their proficiency and passion for Islamic scholarship. Moreover, our triumph in the Arabic declamation, where we secured the first position among nine schools, underscores our commitment to nurturing linguistic and oratory skills within our students.

Within our own school community, we have fostered a vibrant Islamic atmosphere. Our Hadith students have diligently recited and elucidated Ahadith after Zuhur Salah, deepening their understanding of prophetic traditions. Furthermore, the Grade 11 students have taken on leadership roles, delivering Jumma Bayan, Khutbah, and leading Jumma prayers regularly, setting an inspiring example of spiritual commitment and leadership.

These achievements reflect not only the hard work and dedication of our students but also the unwavering support of our faculty and administration. Together, we have created an environment where Islamic education is not just a subject but a transformative journey that empowers students to excel academically, spiritually, and morally.

# MESSAGE FROM THE COUNSELLOR

REFLECTIONS

**As we reflect on the pages of this yearbook, let's acknowledge the raw emotions, the silent struggles, and the battles fought behind the smiles of each one of you.**

**As your school counsellor, I've witnessed your tears, your fears, and your moments of triumph. I've seen the depth of your pain and the brilliance of your spirit. Whether it was providing guidance through academic struggles, offering a listening ear during times of personal difficulty, or celebrating your achievements, it has been truly inspiring to see the ways in which you have overcome adversity and embraced opportunities for growth.**

**As we look back on the memories we have created together, let us remember the importance of "Personal Space, Respecting Boundaries" is a series of lessons initiated in the Pre-Primary section the aim is to train our young reflectors to respect each other's personal space. "Well-Being Volunteers Club" initiated in the "Senior Section" is a platform where students work for students and teachers' mental health. And let us never forget the power of community and the strength that comes from lifting each other up.**

**To all students, whether you are returning next year or moving on to new horizons, Remember! You are warriors, champions of your own destiny. And I have no doubt that you will conquer whatever challenges lie ahead. It has been a privilege to serve as your school counsellor, and I look forward to seeing the incredible things you will achieve in the years to come.**

# MESSAGE FROM THE CLASS TEACHER 1-D

The day I welcomed you in my class I was worried about how I would work with such small children. But as soon as I got to know you, I realized you all were energetic and the most refreshing souls and I became extremely grateful. We have laughed, studied, cried, learned and played together. I saw you getting excited over little things and enjoying all the activities we did in the class. I enjoyed watching you grow into more responsible individuals and few inches taller as well! I feel overwhelmed knowing this academic year is coming to an end and my little geniuses are on their way to start a new journey. I wish you loads of success. Always be kind, sincere, forgiving and understanding towards others. Remember that no one is perfect, but all of us can improve if we are willing to put in the hard work.

Thank you for being the best class and making me proud. I'll miss your stories, silly jokes, out of the box questions and your willingness to learn, and your desire to be the best.

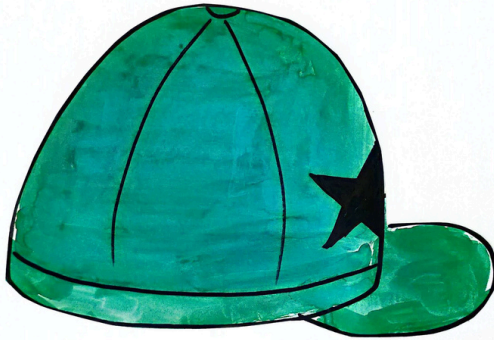

Have a wonderful future!

The sky is light blue with a bright yellow sun in the top left corner and two fluffy white clouds. In the foreground, several green evergreen trees of varying sizes are scattered across a dark, silhouetted ground line. ## Transportation

First people travelled with horse and camel, then next they used boats to move from one place to another. Then the animals were tied to the carts. The cycle was introduced with one wheel then train was used with one boggy then gliders came and people moved <sup>from</sup> one place to other then fast trains came with a lot of boggies then came flying planes. Then the rocket flew in the space.

### Transportation:

Transportation is a general word for all the methods people use to move themselves and their goods from one place to another. Just as they have for thousands of years, people today rely on walking to travel short distances. For longer distances, people depend on animals, bicycles, auto, motorbikes, trucks, trains, railroads, ships and air planes. The world's economy depends on transportation. Raw materials must be moved from where they are produced to factories, where they are processed. Food, minerals, and wood is often transported by trucks, rail roads, or ships. Oil and gas are often transported through pipelines.

The first mode of transportation was horses.

Then came wheels and later velocipede was invented.

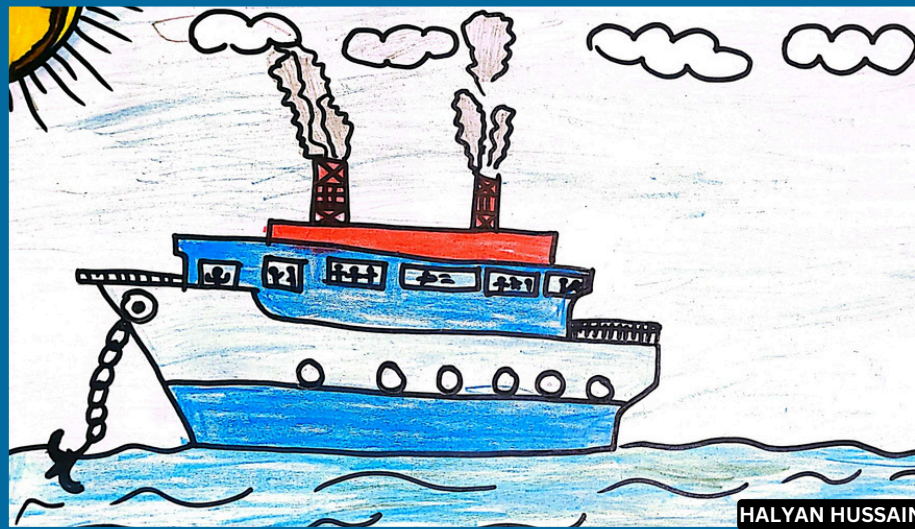

Steam locomotive and engine cars were invented.

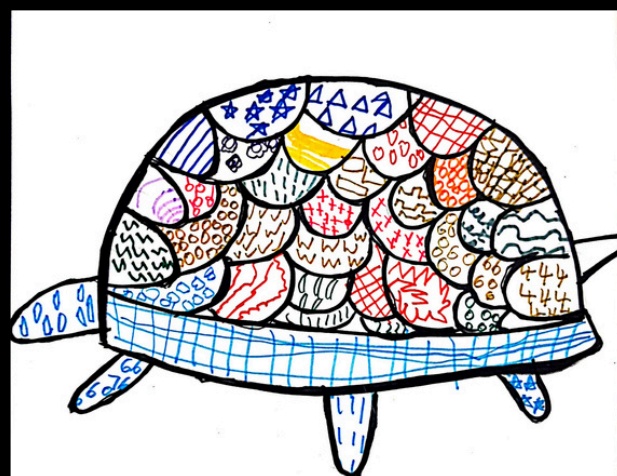

Now we travel in modern cars. They are luxurious and comfortable.

# MESSAGE FROM THE CLASS TEACHER 3-E

Thank you for being an amazing class. I am so proud of your dedication and hard work. Continue to achieve your hifz and academic learning goals simultaneously. You are already wearing the crown of honour Masha Allah. May Allah make it easy for you!

**CLASS 3-E**

First people used animals to travel. Then Hazart Nuh (A.S.) made the very first boat which Allah (SWT) commanded to. Then the type was introduced; it was just like the circus cycle. Then the two wheeled cycle was introduced. Then two Brothers invented the very first airplane; then the airplanes keep transporting. Then the Automobile was introduced. (The first ever car introduced); then the tricycle was introduced. That's how the transportation began.

Long ago man used animals for transport. Then he used animals to travel from one place to another. Allah <sup>made</sup> commanded Nuh (as) to make a boat because there was a big flood going to come. Then types were made and a single type cycle came. Then trains were made. Then man made cars. Then ships were made but they didn't move. With machine they moved with paddles. Then a cycle came which had a big tyre and small tyre then a train came which had a track like rope and then busses, cars and aeroplanes came.

---

---

Allah sent Prophet Noah (AS) to tell the people to pray to Allah. When Prophet Noah (AS) sent the message of Allah to <sup>pray to</sup> him, so then some people did pray to Allah and the kuffars did not pray him. Then Allah sent a message to Prophet Noah to build a boat and there will be groups of animals and the believers. When Prophet Noah built the boat the non believers laughed at him. Prophet Noah (AS) ignored them and kept building the boat. When the boat was finished Allah rained and a flood came when the rain was finished then the believers prayed to Allah.

## Transportation

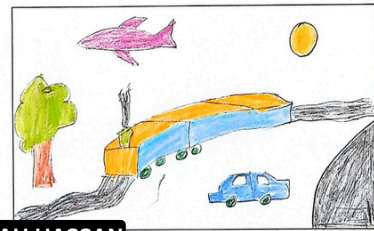

We can transport things using different vehicles. We can use trains, airplanes and ships for transportation of people's goods. We can send gifts using these transport vehicles. Before the 1740s, most people used to communicate using letters. People had to wait and send letters months before it was actually received because there was no proper transportation. To love technology because the development of the transportation and technology has made our lives easier.

## ٹرینسپورٹ

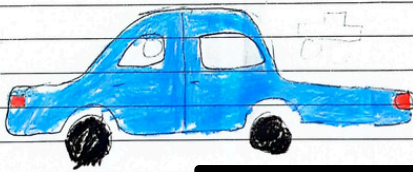

جدید دور کی اہم ضروریات ٹرانسپورٹ ہے۔ ٹرانسپورٹ کے بہت سے ذرائع ہیں۔ مثلاً سائیکل، موٹر سائیکل، گاڑی، ٹرین، ہوائی جہاز وغیرہ جس سے لوگوں کو اور سامان کو لگانے میں مدد ملتی ہے۔ یہ ٹرانسپورٹ ہمیں آرام اور سکون فراہم کرتی ہے۔ ٹرانسپورٹ کے استعمال سے بہتر سفر کرنے کے بجائے گھنٹوں میں پہنچ جاتا ہے۔ ٹرانسپورٹ ہماری روزمرہ کی زندگی کے لیے بہت ضروری ہے۔

## ٹرانسپورٹ

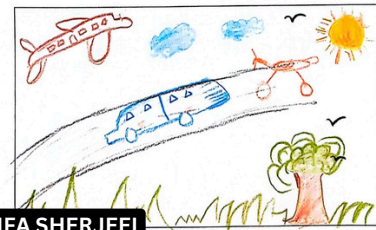

ایک دن جب میں اسکول سے واپس آ رہا تھا تو میں نے ایک گاڑی دیکھی۔ وہ بہت تو بصورت تھی۔ اس کا نام ٹینک ٹاکس تھا۔ یہ گاڑی دیکھ کر تو میں میں حیران ہوا۔ کبھی یہی عمر میں نے اس کو ٹینک کے بارے میں سنا تھا۔ اس نے ہمارے ٹینک ٹاکس اس جیسے جدید گاڑیاں دیکھے ہیں۔ اس سال گرہ میں اس کی پیمائش میں دیکھ کر وہاں میں نے دیکھا کہ یہ گاڑی پر جدید ہے۔ یہ گاڑی موجود ہیں۔ لوگ اس کو ریس کے لئے ان گاڑیوں میں سفر کرتے ہیں۔ وہاں میں نے یہ سیکورٹی دیکھی ہے۔ یہ گاڑی اس کی ریس اور ان جیسے گاڑیوں دیکھی ہے۔ میں ان کو دیکھ کر اتنا خوش ہوا کہ میرے خواب میں بھی یہ گاڑیاں نظر آئیں تو آج یہ ریس میں دیکھ کر یہ گاڑی دیکھ کر وہ گاڑی اور بخاری دیکھ کر اسے استعمال کرتے ہیں۔

## ٹرانسپورٹ

قدیم زمانے سے لوگ آمد و رفت کے لئے مختلف ذرائع استعمال کرتے آئے ہیں۔ جیسے گدھا گاڑی، گھوڑا گاڑی، اونٹ وغیرہ۔ وقت گزرنے کے ساتھ ساتھ انسانوں نے ترقی کی اور آمد و رفت نئے نئے ذرائع ایجاد کر لئے جیسے سائیکل، گاڑیاں، ریل گاڑی اور ہوائی جہاز۔ شروع شروع میں گاڑیاں اسدھن سے چلتی تھیں، مگر اب بجلی سے چلی جاتی ہیں۔

# MESSAGE FROM THE CLASS TEACHER 3-F

It is hard to believe that another school year is coming to an end. Through the good and bad times, we have found new ways to sow love and support for each other in our classroom.

Being Hifz students, you have seen much difficult times than others by staying back in school for long hours, keeping a balance between hifz and academics, etc. But seeing you all manage it so well always is commendable. Masha Allah!

Our year was full of challenges, ups and downs, and good and bad moments, but we've been through it spectacularly.

We have seen each other improve and accomplish our goals and have gathered lots of memories to cherish!

From preparing for the Mega Event and going to field trips to the memories of Megathon and Math Smart, I have treasured your smiles and loved your work and jokes.

Being your teacher, I taught you many things but even you all have taught me a lot this year, with your creative thoughts and perspectives of the world.

A little bit of you will always remain with me!

Never forget that this journey is a never-ending one. There is always going to be improvement, growth, and some or the other challenge ahead, awaiting.

Just take it all in and always do what is right.

My prayers will always be with you. May you be blessed with much health, joy, success, peace, and prosperity.

Ameen.

## Transportation

The very first transports were horse and camel carts. After that people learned how to make boats. They cut the trees to create boats. And after some time they learned to make tires. And they made Cow and Donkey carts. It took years to learn how to make tires. At first they made tires of wood. After a year they started making bicycle. First they were no pedals. They used their feet to move bicycles. Then they made trains.

## "Adventures on wheels"

In a world of motion, we set our wheels free,  
Discovering the wonder of transport, you and me.  
With cars and bikes, we zip and we zoom,  
Exploring the earth, like an endless ballroom.

Train on the tracks, their whistles a song,  
Take us to places where we all belong.  
Boats on the waters, they bob and they float,  
Sailing through stories, every river they wrote.

So many ways to travel, each with its grace,  
In this big world, we find our own space.  
Transportation, you're a thrilling ride,  
With you on this journey, we'll always glide.

ABDUL HANNAN KHAN

## All about Transport

1. Types of transport: There are many ways to travel!  
Cars go on roads, planes fly high in the sky, trains ride on tracks, and ships sail on water.
2. Helpful vehicles: Transport helps us in different ways. Ambulances quickly take sick people to the hospital, fire trucks rush to put out fires, and buses carry us to school.
3. Transport history: Over time, transport has changed a lot. Long ago, people used horses and carts. Now we have fast cars, high speed trains, and even rockets that go to space.

## All about Transport

Transportation is like an enchanting journey through the world. It's how we move from one place to another, and there are many exciting ways to do it! You might have seen cars zooming on the roads, buses carrying friends to school, or even a train chugging along the tracks. If you want to go really high, airplanes can take you up to the clouds and faraway lands. Each type of transport has its special job, and they all help explore, visit friends, and go on incredible adventures. So the next time you see a vehicle, remember it's like a little piece of wonder that helps us discover the world around us!

## My Dream Car

Transports help us to reach places fast. Transports are fast and some are slow some are old and some are new. Like cars, boats, spaceships, and helicopters. spaceships also helps to go to the moon. I would love to travel in an RV van. I would love to have a TV, bed, sofa, bathroom, kitchen, and a refrigerator with loads of Juices so the traveling can be fun. Then I can play with my cousins and travel around the world.

# MESSAGE FROM THE CLASS TEACHER 3-G

As the new academic year approaches, your accomplishments and commitment to your objectives must be made evident.

Let's recap this year together....

Salutations to all of you, my tiny little cherubs.

I was quite concerned about the boys' section and how comfortable I would be with you all on the very first day of our getting together, but I had no clue that you would all end up playing a crucial part in my life.

Your mischievous actions began every day, but it continued with your intelligence, excitement for learning, and compassionate assistance and encouraging each other. You are my treasures, and I am incredibly proud to be your teacher.

Our bond became strong and we all understood each other so well. I have learnt something new from you every day.

My dear champions I hope that everyone has a successful future because you all work so hard and never give up, develop wisely and achieve success with the same enthusiasm you possess now.

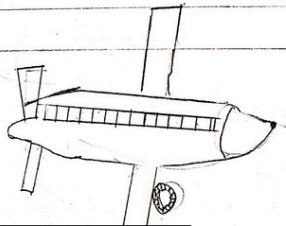

Learn from yesterday and shine brightly!

In this century, cars are important and common. Transport cars are used to travel, and come in many colours. Cars have engines, battery, light, tyres, A/C, seats, door and bonnet. The steering is very important because the car turns when we turn the steering. When we wash the car, it shines in the sun. Cars are important because they take us from one place to another.

## Sea Transport

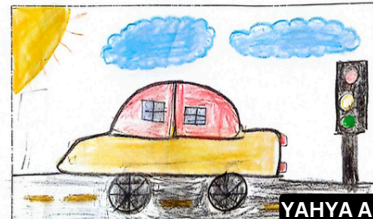

Traveling by ocean has introduced many types of sea transport options available today. Tons of kilograms of goods can be transported safely by sea. ## Transportation

The first boat was made by Nuh(As). He made a boat because he needed to save the good people and himself. When he started to make the boat, the bad people were saying bad things to the prophet. He made the boat because Allah's command. He didn't stop working. He kept working day and night. When he finally made the boat, he started calling people. He let good people and animals inside but his son and wife refused to go in the boat because both of them planned to disbelieve on

## Transport

Transportation is how people get from one place to another. Any sort of vehicle can be used as transportation. There are three types of transportation ways: land, water and air. Cars and buses are modes of transport. Transportation modes are wheels that move on the land. Not all vehicles have wheels to move. Ships and submarines are some modes of transport through water. And aeroplanes, helicopters are some modes of transport through air. I will conclude with a poem:  
We can fly in airplane  
We can ride on a train  
We go here, we go there  
In a bus or a car.  
In a boat, we will row  
We can go, go, go!!!

# MESSAGE FROM THE CLASS TEACHER 4-A

As I reflect on this school year, my heart swells with pride and gratitude for each one of you. Your laughter, curiosity, and unique personalities have filled our classroom with warmth and joy. Together, we have shared triumphs, faced challenges, and created memories that will last a lifetime.

I am immensely proud of you all. Your growth, both academically and personally, have been a source of inspiration for me and everyone around. Remember, each one of you is a sparkling star, capable of achieving incredible things.

As you turn the pages of this yearbook, may you be reminded of the friendships forged, lessons learned, and the strength you possess within. Always embrace the spirit of learning, curiosity, and kindness that define each of you.

Wishing you a future filled with endless possibilities and the courage to chase your dreams. Continue to shine brightly, knowing that you have the power to make a positive impact on the world.

With heartfelt gratitude and best wishes.

## My School Library

Every library is amazing, but our school library is unique because whenever I enter it it's like I am in a very quiet zone. Our library almost has one thousand books, there are lots of big and small chairs. My favorite thing about the tall shelves is that there are many sets like fiction, juniors and more. The books there have a very interesting vocabulary and the teachers there are very nice. Our rules are very strict so we have to pay full concentration in reading books. Our reviews and in our vocabulary. We have many language competitions like like scrabble and magathon. For magathon we have to memorize hundreds of spelling. It is fun. I won the contest this year. I was delighted and I am preparing for the next Magathon. I just wish that the library doesn't change and stay the way it is.

## My Favourite book

My favourite book is "Charlie and the Chocolate Factory" and its author is Roald Dahl. The story is about a poor little boy who loved chocolates. There was an amazing chocolate factory in his town which belonged to a person named Willy Wonka. There was a contest he won a golden ticket and got a chance to enter the factory. He explored the factory along with other 5 kids and Willy Wonka. He saw how the chocolates were made in the factory. In the end, Charlie became the owner of the factory.

## Book World

There are many benefits about books. Well, everyone says that books make you smart, but there are more benefits that are very good for us. Sometimes when we are reading we start imagining about the whole world of books. I love reading because it is fun. My favourite book is "Wimpy Kid", "The Long Haul". Jeff Kinney wrote this book, he wrote other books as well, just like "The Old School", "Robert Rules" and many more. He always writes funny books. In my school I have a library. I was choosing a book and suddenly I saw a book named "The Adventures of Huckleberry Finn". I loved that book so much. From now on I will go to the library near my home.

## Do You Like Roald Dahl TOO!

The author who writes his story with interesting characters, exciting sentences, and perfect details that makes the reader go to the last word. Meet "Roald Dahl".

Roald Dahl was born in 1917 in Llandaff Glamorgan but his parent were Norwegian. He was educated in England before starting work for the shell oil company in Africa, alongside being an (RAF) fighter pilot during world war II. His books include Matilda, The Twits, The BFG and the Witches etc. Roald Dahl was very strict, he didn't let anybody come inside his writing hut because of which his hut always remained messy. Roald Dahl used to keep six sharpened pencils with erasers and with yellow legal notepads during his writing session. Roald Dahl died in 1990.

SUNAYNA SUFYAN

## My Favourite Author

Who can refuse the remarkable benefits of books. My eyes go for the search of Enid Blyton's books, whenever I enter the library. Enid Blyton, famous for writing children's book was born in East Dulwich, London. The most interesting series to me is Secret seven.

She was brilliant writer who wrote 800 books in a period of 40 years. Enid Blyton's first published book was Child Whispers. Enid Blyton's book are very fascinating; it is very interesting and adventurous. They are written in a very detailed manner so when a reader reads, they get a clear image of the story in their mind. The reader is curious till the end. She passed away on November 28 in the year 1968.

Books are the quietest and most constant of friends, they are the most accessible, wisest of counsellors.

Heidi is a book about an orphan girl who lived with her aunt in a city. After her aunt Deta had no more money left, she found a job in Frankfurt and had to leave Heidi in the mountains with her grand father. When she reached the mountains she was amazed by the beauty of the mountains. When it was every night time grand father told her stories beside the fire. At the end of her stay, Heidi felt sad when aunt Deta came to take Heidi back to Frankfurt.

## Who Invented Books

The ancient Egyptians had wax and wooden notebooks, but the Romans were the first to create bound books from (Papyrus) Paper. By the 2<sup>nd</sup> century this kind of codex was the preferred writing tool among early Christians. The earliest known written documents that similarly align with modern books are known as codices. The codex was developed by the Romans to replace scrolls and is formed by binding a stack of hand-written sheets on one side. These rolled up manuscripts were often made using a paper plant. Books are made of paper, ink, thread and glue - but alot of work goes into making them before they get assembled. Now we can find books everywhere "but" mobile phones has replaced the books with E-books.

Books are a challenge,  
As we well know  
But reading causes  
knowledge to flow.

## Book World

- Book is like a library in your head. My favourite book is of Judy Moody, author is Megan McDonald.
- Books give you an imagination in your head. I am crazy about the new books I have, the picture of the book is gorgeous. Many adults prefer over sized books, that way it is more interesting. As the reader's mind becomes strong they can have any imagination. Books are my second friends and I am delighted to have these friends with me. I used to go to libraries, but now some are closed near my house. After they closed I started feeling depressed. On online I saw books! I was so over joyed with pleasure.
- By the end eventually I feel like being an author when I grow up. I will write wonderful books for wonderful children.

SARAH KHALID

## My Favorite Author

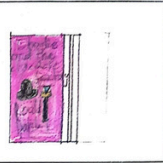

My favorite author is Enid Blyton because her stories are so interesting. She was born in London, England. She has written over 282 books including the enchanted wood, the magic faraway tree, Famous Five and Secret Seven. She has sold more than 600 million copies of it. Her books are very popular and have been translated in many languages especially famous five. At June 2019 Enid Blyton was given 4th place for the most translated author. Today people also read her books and remember her name Enid Blyton. I also wish to write a book like Famous Five and Secret Seven in the future. Inshallah!

## Books, books, books everywhere!

Books are the most important asset. Books are the gates to our imagination. Books are the best teacher and it helps us to teach ourselves many subjects e.g. arts, science, nature and mathematics. Books can be best friend too. We are never alone if we have books with us. Books are the best guides as well because they make us travel around the world without even tickets and passports. Books are the source of valuable knowledge and inspiration. Books improve our communication skill by learning new vocabulary. Thus, there are countless benefits if you have a book as your companion.

## The World of Books

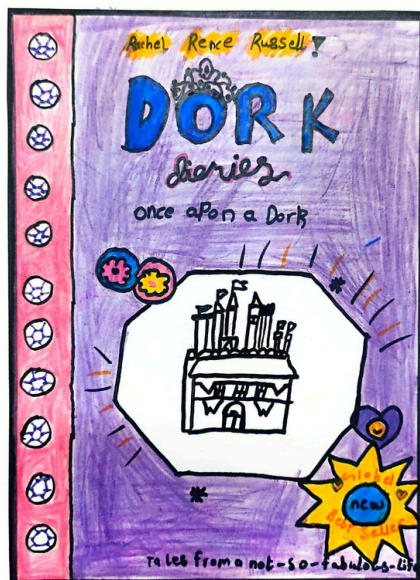

The world of books is like a magical land. When you read a book you can go on exciting adventure. You can learn new things as well. You can imagine your self while reading the characters in the book like super heroes and fairies. You can also visit places you've never been. Books can be found in library or on tablet and phones as well. They are like keys to unlock your dreams of imagination. Books give you more knowledge. There are many types of stories but I like fairy tales most.

# MESSAGE FROM THE CLASS TEACHER 4-B

This has been an incredible school year, and I'm so proud that I had the opportunity to teach such brilliant students.

I would like to express my admiration for the determination and resilience you've shown throughout the year. Your growth academically and personally is a true reflection of your character. You faced challenges and came back stronger. This quality will serve you well in the future.

I wish that you see in yourself the potential that I see in you.

Always fill your heart with laughter and smile as often as we did in the classroom. For me, you all are unique in your way.

Lastly, to my students, I would like to say THANK YOU for being such a courteous and well-behaved class.

This year, you have grown, and so have I. A little bit of each of you will always stay with me, and I'll always be there if you need me.

## The Famous Five

"Famous Five go off in a Caravan"  
is written by Enid Blyton. There are five cousins Julian, Anne, Dick, George and Timmy the dog. They go off in a caravan where they meet a circus. But some of the circus people are unfriendly and seem to have sinister plans. Thus, it turned out that they were actually stealing valuables and hiding them in a cave. Together with their bravery and intelligence they helped the police capture the thieves and return the stuff to their rightful owners. I really enjoyed reading this full of thrill and mystery book.

## Review Book:- Whatever after

I like this story because this is an interesting junior fiction. There are many characters in this story but I like only few: (Abbey, Taran, Genda and Sharon). Abbey and Taran have a magic mirror in their basement.

One night they went in their magic mirror. They are captured by a gang of robbers. They escaped from the robbers house at night. In the robbers house they met a slave girl and they became friends.

In the end they go back home. Their parents are awake and they scold them badly. That was the end of the story and my favourite part too.

## Where is my kite?

I had a kite that flew so high,  
It reached a bird while in the sky.

My kite stayed in the air so long,  
I asked my brother what was wrong.

He said "Your kite just took a rest,  
The bird has used it for a nest."

# MESSAGE FROM THE CLASS TEACHER 4-C

It was a great pleasure to have you all this year in my classroom. We learned so many things. It has been a pleasure and privilege to see your personalities grow day by day. It was a great year and we had so many memorable moments.

My wish for you is that you see the light in this world, in yourself and in others like I see the light in you. Remember! you are braver than you believe, stronger than you seem and smarter than you think!

Keep working hard as you did this year and become the best version of yourselves.

My best wishes for you all.

## The Golden Touch

The book I read recently is The Golden Touch. The book is good and amazing to read and I was shocked because a mere touch made the girl of gold. It has many interesting parts and the characters are so funny. It made me feel bad for the man because he was very greedy and proud of golden house and he said that his the richest man in the world. My favourite part is when he went to the river and became out becoming a normal person. I don't like Dionysius because he was the bad guy. I wouldn't have ended the book differently because it was happy ending.

## Geronimo Stilton Books

Today, I will be reviewing a book called "Geronimo Stilton" written by "Elisabetta Dami". I borrowed this book from the library and it is a part of series. In my opinion, the book is a must-read and has some very interesting parts. It was enjoyable to read and also humorous and happy. My favourite part was when Geronimo's cousin enters the Super Chef contest and Geronimo has to help him out by fasting his awful food. There isn't anything about the book that I didn't like and my favourite characters are Geronimo and his nephew Benjamin. The thing I learned from it was that we should help others.

## The Book World

Books help us increase our knowledge and they help us to be more smarter. Books also improve our language skills. You can learn about the world by reading the books and understanding what the author says in it. The author can also make the book interesting, funny or serious as well. Books also help us read difficult words easily by breaking the words into syllables. You can find books in different libraries. I wanted to improve my English that is why I read English books. Books are so good that people say they are the "English improver" and man's best friend. My favourite books are that gives information about things like animals, plants and also scientific books that tells about inventions. I adore spending time with books.

## کتابوں کی دنیا

کتاب کتابیں پڑھنا بہت پسند ہے۔ مجھے کتابوں کی دنیا میں مزہ آتا ہے کیوں کہ کتابوں سے ہمیں نئی نئی باتیں، معلومات، حقائق پتے ہیں۔ مگر سچے کتابوں کے ذریعہ دنیا بھر کے ممالک کی معلومات مل جاتی ہیں۔ کتابوں کے ذریعے اپنے دینی کو اچھی طرح جان سکتے ہیں۔ کتابوں کا مطالعہ کرنے سے ہمیں نئے الفاظ اور نئی چیزیں پتا چلتی ہیں۔ کتابیں پڑھنے سے ہماری سوچ بڑھتی ہے۔ علم و ادب بڑھتی ہے۔ اگر کتابوں کی دنیا میں ہم داخل ہوں تو ہمیں بہت سی چیزیں کتابیں پڑھ کر ملتی ہیں تو ہمیں صحیح اور غلط کا پتا چلتا ہے۔ کتاب سے اچھا دوست کوئی نہیں ہے۔

Cosmos, cosmos is a popular science book written by an astronomer and, Pulitzer Prize-winning author "Carl Sagan". Cosmos, an astronomy, the entire physical universe considered as an unified whole. The book often simply means "universe". But the word is generally used to suggest an "orderly" or "harmonious" universe, as it was originally used by Pythagoras in the sixth century B.C. Thus, a religious mystic may help us put in touch with the cosmos, and so may a physicist. Cosmos is originally a Greek word meaning both "order" and "world" because, the ancient Greeks thought that the world was perfectly harmonious and impeccably put in order.

# MESSAGE FROM THE CLASS TEACHER 4-D

I want you all to know how grateful I am to have been your teacher. Know without a doubt how much happiness you have brought into my life. Every moment, every day has been filled with boundless joy. I need you to know that I have enjoyed you more, your laughter, your ideas, your personality and your uniqueness.

You have amazed me by your brilliance. I also loved challenging you, pushing you further than you ever imagined only to see a spark of understanding flash across your faces.

Your expressions radiate new knowledge. You have grown, you have matured, and you are smarter today than yesterday. My wish is that you keep seeking knowledge, asking, searching, reading, analyzing and keep building. Keep the joy in learning and never stop. Even though I was your teacher in class, but you taught me something new every day.

You taught me that hugs are essential, learning happens in a positive environment and post-it notes can provide endless entertainment. Finally, laughter is necessary every day!

Please carry with you the passion, the perseverance, and the dedication you exhibited daily for me. Work hard in your next journey, set goals and do everything in your power to achieve them, and remember how smart you are!

I will always be there for you. Wishing you loads of success next year!

## Book World

Quran is my favorite book. This book was given to our Prophet (S.A.W) by Allah through Angel Jibreel. Quran has many surahs. In the surahs are many different messages and it's fun to do tilawat. Millions of people in the world have the Quran in their hearts. (hifz of the Quran)

## The Quran

The Quran was Revealed to Prophet (S.A.W). It teaches us what deeds to do and what deeds not to do. If we don't read Quran we are going to have a hard time. My favorite Surah is Surah al Baqarah. This is my favorite because it is the longest. When we are reading Quran it is as if Allah is talking to us.

## Day of Judgement

On the day of judgement there will be a huge earthquake. The world will start falling apart and the Earth will take out whatever is inside it. It will throw out its dead people from the first to last generations. The Earth will throw out the prices of its liver it contains: gold and silver will outcome like columns. A murderer will come and say, I killed for this. The one who broke the ties of kinship will say I did this for this. On the day of Judgement the Earth will call out everyone's names who did good deeds and who did bad deeds to Allah. On that day Allah will expose every one's deeds, on a huge screen or a book of deeds. Every thing will be destroyed the crops, plants, trees and all the houses. People will run like scattered ants and ask for help.

## World War 2

Seventy seven years ago, there was a massive war that I will be writing about.

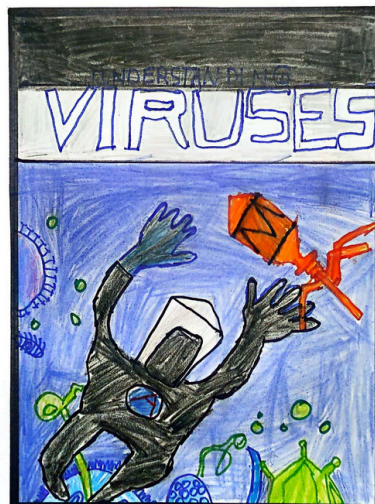

World War II first started in 1939 when Hitler, the dictator of Germany, says to Stalin, the dictator of Soviet Union, 'We'll invade Poland, then we'll split Poland in half.' Stalin agreed. This new alliance stunned the West. After they invaded Poland, Germany assembled their army to invade Denmark and Norway. They invaded them both in 9 to 12 hours. They assembled their army again and then invaded France. They assembled their army again and then they invaded the Soviets. The Soviets fought hard against the Germans but they kept on losing land. After the Germans captured Moscow, the Soviets moved to Stalingrad and so did the factories. When the Germans reached Stalingrad, they lost the majority of the soldiers, then they retreated. The Soviets took Berlin from the East and U.S.A, France and Britain took Berlin from the West.

Now that's how World War two started and ended.

Miswak, the natural tooth brush

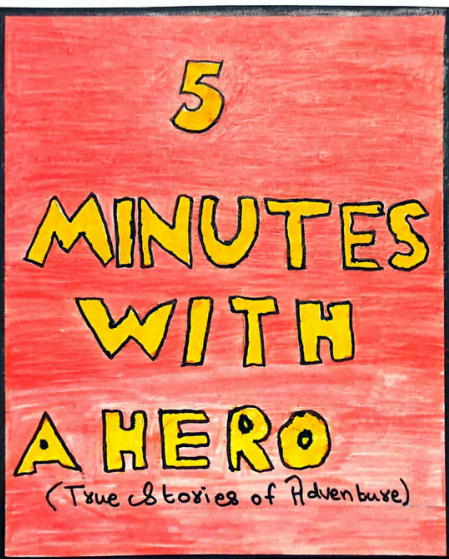

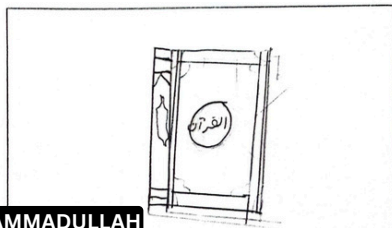

We have world of books in our library. Suddenly a book attacked me and its title was, "Miswak". It was a story about a boy named Abdullah who went with his family for camping. Abdullah forgot his toothbrush. He searched in his bag but couldn't find it there. Then his father told him to use miswak. His father explained that we can get many benefits and rewards by using miswak. Abdullah was amazed. In this book I learned the types of miswak, how to make it and how to use it. We also learned that Muhammad (SAW) used miswak while going to Salah or waking up from sleep and in Tahajjud prayer. He loved it so much that even on his deathbed he asked for a miswak. After reading this book, I was so happy that now I know about his great sunnah and I will also teach other people.

The Magical Garden

Last month I read a story named "The magical garden". In the story, a young girl named Lily discovered a hidden garden behind her house. She met a talking squirrel who told her about the magical powers of the garden. Together they went through a journey to save the garden from an evil witch who wanted to steal its magic. In this adventure, they met friendly fairies and brave elves. They outsmarted the wicked witch and protected the magical garden and its powers.

It has been a marvellous year full of work and fun. I have watched you all learn and grow, and change from day to day.

So much has happened this year from the Interschool Math Smart to the field trip taken together, and the Hifz/ Qira'at Competition, your performance is worth a praise! Also, the efforts you have shown during the Mega Event preparations were admirable. You have already proven that there is nothing you cannot accomplish. I am very delighted to have highly talented learners like you.

Much thanks to you for being such diligent students. You were always mindful and ready to help your classmates. It was truly an honour to have such students who take interest in learning and exploring new ideas.

May your studies be fruitful and your academic journey be an enriching one. Stay focused and take advantage of the resources available to you especially given that you all are future Huffaz-e-Quran, insha Allah, which gives me great pride. May Allah Almighty bless you with life's biggest joys and never-ending bliss. Aameen! Here's to wishing that you all achieve your greatest successes.

## My Favorite Book (Allah's Book)

Quran is Allah's book. It's a guide about Islam, the right religion. It takes you to the right religion. It tells about twenty-five prophets in the past. The prophets' story tells how they spread the religion, how hard was it. It contains pure code for everything. Over two billion people believe in Islam. More than a quarter of the universe people don't recite Quran which is very sad.

## My first day at school

I do remember my first day of school when I was 5 years old. Everyone was stranger for me and I was very sad because I left my good friends in my previous school. Suddenly, I met Ayan-ul-Haq and we became good friends. We are still very good friend. Ayan-ul-Haq is my best friend because he is kind and when I say anything to him he doesn't mind. He is intelligent also. He does his work on time and when I don't have a pencil or an eraser he always gives me his and he never hits me.

The title of the book I'm reviewing today is The Leopard and his spots. The words used in the book are easy to understand so I didn't need to think a lot. The book was funny and I borrowed it from the school library. The part I didn't like is when the leopard went to the doctor to get his spots removed. My favourite character was the leopard. I learnt from the story that we should be happy with what Allah has blessed us with.

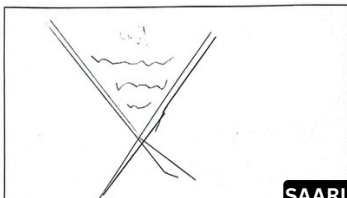

A drawing of an open book with a globe of the Earth in the center. The title "World of Books" is written at the top. The globe shows continents in green and oceans in blue. The book's pages are represented by horizontal lines on either side of the globe.

**MUHAMMAD AAYAN UL HAQ**

The book I am writing about is The Pedlar's Dream written by "Phyllis Flowerdew." It's a part of the book and was fun to read. It's the story with happy ending. It made me think that Allah could change fortunes of anyone in no time. My favourite part was when the man in London told the Pedlar his dream. My favourite character in story was the Pedlar. The most interesting thing that I learned from the story was that when Allah wants to change some one's fortunes He does it in most unbelievable way. I think the author wrote the book so that children take interest in reading and enjoy. I would have changed the final part of the story a bit by making the pedlar give money in charity instead of giving it to the church.

## The adventures of Sherlock Holmes

The book that I reviewed: The adventures of Sherlock Holmes written by Conan Doyle. The book is about 4 series and I borrowed it from the library.

The book was quite interesting. I had fun reading this book. My favourite character is the main character Holmes.

My favourite part was when Holmes found out that Abe-Sankey was the killer and was sent to jail for life and finally Holmes completed Mr. Clubbitt's challenge.

The lesson I learned from this book is that you should be vigilant in solving mysteries and puzzles.

## The scary monster

Musab was hiding under his bed, shivering like a leaf and drenched in sweat. Thud Thud Thud. The foot steps came closer. He could see the round shadow approaching. The thing lowered its lime green face its one eye right in the center of its face staring at Musab, Musab was petrified. The thing moved its bony hand forward. And snarled all around he disappeared. Instantly Musab ran to his parent's room to share his terrifying experience. They told him it was just a dream but he knew better. That night he slept in his parent's room. The next morning when they switched on the news it said "children from all around the world have experienced a strange thing... The news said that unicef has received an apology letter from the planet mar's saying that they had to steal some hair for our transplant. Musab's parent's said sorry to him for not believing him in the first place.

المؤمنون السَّاعُونَ عَلَى الْكُتُبِ  
فَإِنَّ الْكُتُبَ مُرْفُوعَةٌ وَإِنَّا أَكْفَرُ الْكُتُبِ الْمُتَقَلِّبِينَ إِنَّا أَكْفَرُ  
الْمُتَقَلِّبِينَ عَنِ الدِّينِ فَأَكْفَرُ الْكُتُبِ الْإِسْلَامِيَّةِ وَأَنَا أَكْفَرُ الْقُلُوبِ  
الْمُتَقَلِّبِينَ مِنْ الدِّينِ نَعْمُ أَجْمَعِينَ وَوَقَّعَ الرَّسُولُ صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ  
أَنَا أَكْفَرُ وَقَّعَ الْخَاسِئُوسُ وَالْمُتَرَبِّعُونَ أَنَا أَكْفَرُ الْكُتُبِ الْإِسْلَامِيَّةِ كَذِبًا  
فَعِنْدَ رُبِّ الْمَعْلُومَاتِ عَلَى الْمَرْصُوفَةِ أَكْفَرُ الْقُلُوبِ وَأَنَا أَكْفَرُ  
لَنْ أَكْفَرُ الْقُرْآنَ الْكَرِيمَ مَعَ التَّوْحِيدِ

MUHAMMAD MAAZ USMAN KHALID

المؤمنون: اللّٰهُمَّ صَلِّ عَلَى النَّبِيِّ مُحَمَّدٍ  
الْكَتَابُ هُوَ مَعَالِي، أَنَا أَكْفَرُ الْكُتُبِ كَثِيرَةً وَكَثِيرَةً وَأَنَا أَكْفَرُ الْقُلُوبِ الْفَاسِقَةِ  
وَأَكْفَرُ الْكُتُبِ: أَنَا أَكْفَرُ الْقُلُوبِ الْفَاسِقَةِ وَأَنَا أَكْفَرُ الْقُلُوبِ الْفَاسِقَةِ وَأَنَا أَكْفَرُ  
الْمُتَقَلِّبِينَ فِي الْأَعْيَادِ وَالْمُتَقَلِّبِينَ فِي الشَّيْءِ الْقُرْآنَ كُلَّ الْقُرْآنِ أَنَا أَكْفَرُ الْكُتُبِ الْفَاسِقَةِ  
كَيْتُ أَكْفَرُ مِنَ الْأَنْبِيَاءِ، أَنِّي بِلَادِي وَبِلَادِي وَأَنَا أَكْفَرُ الْقُلُوبِ الْفَاسِقَةِ وَوَكَّعَ  
يَتَعَيَّنُونَ بِهَذَا أَكْفَرُ الْقُلُوبِ وَوَكَّعَ أَكْفَرُ الْقُلُوبِ الْفَاسِقَةِ الْكُتُبِ الْفَاسِقَةِ  
بِهَذَا؟
