MISSION

**To be an exemplary
institution, providing a
balanced education, to
develop God-fearing
leaders**

OUR CORE VALUES

EXCELLENCE

To do everything in the best possible way.

SHARIAH COMMITTED

To operate within the jurisdictions of Islam.

TOLERANCE

A wider acceptability of ideas and people and dealing with them in the most appropriate manner.

SINCERITY

Purely for the pleasure of Allah.

BALANCED EDUCATION

To provide holistic learning to nurture the body, mind and soul.

MESSAGE FROM THE PRINCIPAL

Assalamu Alaikum wa Rahmatullahi wa Barakatuh,

Alhamdulillah, as we approach the conclusion of this academic year, we find ourselves reflecting on a journey rich with the countless blessings of Allah (SWT). At Reflections, our mission remains unwavering: to nurture students who are not only academically competent and morally upright but also spiritually grounded.

We strive to develop learners who practice Islam sincerely and share its values with others. Our vision is to cultivate confident individuals who can navigate the world with clarity, communicate effectively, collaborate as team players, and build strong academic habits that foster a lifelong love for learning. We also encourage our students to excel in sports, promoting physical well-being, discipline, and a balanced lifestyle.

This year, we have seen these attributes come to life across our classrooms, hallways, playgrounds, and arenas. Our students' achievement as the 2nd Best Delegation at the LUMS Religious Festival 2025 is a testament to their confidence, communication, and collaboration. Likewise, our first-ever Umrah excursion to Saudi Arabia was a spiritual milestone—an immersive learning experience rooted in the legacy of our beloved (peace be upon him).

To our students: think of yourselves as explorers. Throughout this year, we've worked to instill in you the curiosity to discover, the tools to excel, and the moral compass to stay true to your values. These are your essentials for navigating the ever-changing, complex terrain of life—bi'idhnillah.

To our teachers and staff: your commitment is the heart of our school. As the saying goes, "A school is only as good as its teachers." Your tireless dedication and sincere efforts are the foundation of all that we have achieved. May Allah reward you abundantly and continue to bless our community with unity, growth, and excellence

May Allah (SWT) make Reflections a beacon of excellence.

Wassalamu Alaikum wa Rahmatullah,

Fahad Haroon

MESSAGE FROM THE VICE PRINCIPAL

Dear Students and Respected Faculty,

As we close another enriching chapter of our academic journey, I extend my deepest gratitude to each of you for making this year truly memorable.

To our students - your spirit, curiosity, and commitment have been nothing short of inspiring. From your efforts in the classroom to your accomplishments beyond it, you have brought energy, excellence, and heart to our school community. You've not only met expectations - you've redefined them. Thank you for embracing challenges, lifting one another, and growing with such grace and purpose.

To our faculty - your dedication is the quiet force behind every success we celebrate. With wisdom, compassion, and creativity, you have shaped minds, nurtured talents, and sown seeds of lifelong learning. Your role extends far beyond instruction - you are mentors, motivators, and role models. Your contributions are seen, valued, and deeply appreciated.

Jazakum Allahu Khairan for your steadfast commitment, your patience, and the care you pour into everything you do. You are the anchors of our shared mission.

As we step into the summer months, I wish you all a well-deserved season of rest, reflection, and renewal. May it be filled with peace, joy, and blessings.

**With heartfelt appreciation,
Hajirah Kashif Fazal**

EDITOR'S LETTER OF THANKS

Dear Reflections Family,

Alhumdulillah 4th year of being a part of the team responsible for bringing out the school Yearbook. This one being the edition for 2024-2025.

Second year of a theme based yearbook, this year focus being on EMOTIONS.

Our students assisted by their teachers have contributed some really heart felt pieces of writing based on emotions. You will be enthralled to see the creative art work of our tiny tots.

My heartfelt gratitude to all involved in any way big or small to make this unique yearbook seen the way it is here in your hands, specially Mehreen Faraz, Maymoonah Ahmed and Naheed Noman. Class group pictures courtesy Ayesha Sultan.

I'm grateful to Mr.Fahad Haroon for his support.

JazakAllah Khair to everyone here at Reflections for doing their part that enabled us to do ours.

Any oversights are deeply regretted as we wanted minimum omissions to keep the originality of each student's input.

Happy Reading !

Nazia Asad

Senior Resource Person

Reading, Publications and Academic Audit

MESSAGE FROM THE SENIOR LIBRARIAN

Assalam o Alaikum,

Alhamdulillah, another remarkable year has come to a close, filled with numerous achievements and cherished memories. I extend my heartfelt gratitude to my incredible team members, students, and teachers for their tireless efforts in making this journey so enjoyable and rewarding.

This year, we successfully continued our programs and hosted two exciting events:

- 1. Interschool Megathon Contest**
- 2. Interschool Scrabble Championship 2025, in collaboration with the Pakistan Scrabble Association**

Both events received overwhelming appreciation from participating schools, Alhamdulillah.

To motivate our young readers, we awarded badges to students who achieved remarkable milestones in book reviews during Winter Break as Winter Star Reader. This recognition celebrates their love for reading and encourages them to continue exploring new worlds.

As we bid farewell to this year, I wish everyone all the best in their future endeavours. May your love for reading continue to grow, and may your smiles never fade.

Keep Reading, Keep Smiling!

**Warm regards,
Mehreen Faraz**

MESSAGE FROM THE HEAD MISTRESS

Assalam o alaikum wrwb

Dear Teachers and Children,

As we approach the end of this remarkable session, I want to take a moment to reflect on our journey together. This has been a year filled with challenges, growth, and countless moments of joy and accomplishment.

To my wonderful teachers, your unwavering dedication and hard work have been the cornerstone of our success. You have nurtured young minds, inspired creativity, and instilled values that will last a lifetime. Together, we have overcome obstacles and celebrated milestones, proving that teamwork and determination can achieve great things.

To my dear children, you have been the heart of this school. Your enthusiasm for learning, your curiosity, and your kindness toward one another have brightened each day. Watching you grow—not only in knowledge but also in character—has been a source of immense pride and joy.

This year has reminded us of the importance of perseverance, adaptability, and gratitude. Whether it was mastering a new subject, participating in events, or simply being a good friend, each of you has contributed to making this session special.

As we look forward to the new session, let us carry the lessons we've learned, the relationships we've built, and the memories we've created. Let us continue to strive for excellence, support one another, and make our school a place where dreams take flight.

**With love and gratitude,
Nida Kausar**

MESSAGE FROM THE ACADEMIC COORDINATOR

"The best way to make children good is to make them happy."

This profound truth lies at the heart of our mission as educators.

Alhamdulillah, reflecting on the past year fills us with joy and pride at the remarkable progress our students have achieved. Each day brought new milestones in academics, sports, arts, and character development. The resilience and enthusiasm displayed by our children remind us that every effort, no matter how small, contributes to their astonishing growth. The unwavering support from parents and the dedication of teachers have cultivated a nurturing environment where potential is realized, and dreams are fostered.

Every child embarks on a unique journey, and as educators, we are privileged to walk alongside them, offering support every step of the way. Some children bloom quickly, while others take their time, waiting for the right moment to shine. Our role is to provide care, encouragement, and guidance, nurturing their growth with patience and love. Though we may not always see their progress immediately, we trust that, in time, they will astonish us in ways we never imagined.

May Allah (SWT) grant us the strength and wisdom to guide our children toward success, blessing them with bright and prosperous futures. Ameen.

MESSAGE FROM THE TARBIYAH INCHARGE

At Reflections, our vision remains rooted in nurturing students who embody the qualities of God-Fearing leaders - Da'ees of Islam - who serve as role models for the Muslim community.

To fulfill this mission, the Tarbiyah Department has implemented a comprehensive, three-tiered program that works simultaneously with students, parents, and teachers. This holistic approach aims to build character, instill values, and strengthen Islamic identity through thoughtful engagement and purposeful action.

This academic year was vibrant with impactful Tarbiyah-based activities, ranging from classroom discussions and hands-on projects to enlightening workshops and community service opportunities. Students participated in a variety of initiatives, including the Ramadan Sadqa Drive, Ration Distribution Campaign, and sessions on health and hygiene, Haya (modesty), and guarding one's speech. Dedicated workshops were conducted on topics such as music, birthday celebrations, and awareness about cancer and breast cancer, equipping students to critically reflect on contemporary social issues through an Islamic lens.

In line with our commitment to fostering compassion and empathy, students from class 5 onwards actively engaged in community service. Visits were organized to Indus Hospital, SIUT, SOS Village, Aaisha Academy, Manzil Educational Organization, the Edhi Orphanage and Deaf Reach, providing valuable insight into the lives of those less privileged. These experiences not only deepened students' understanding of social responsibility but also encouraged them to become agents of positive change.

Guest speaker sessions further enriched our students' learning journey. Esteemed scholars like Ustaaz Yasin (Naseeha Institute) and Ustazah Huma Najam (Al Ilm Institute) delivered powerful talks, addressing challenges faced by youth today and offering practical guidance rooted in Islamic teachings.

Beyond student engagement, the department also hosted workshops for parents and teachers, fostering a unified approach to Tarbiyah across all touchpoints of a child's life. A standout event was the parenting workshop by Mr. Salman Asif Siddiqui from ERDC, which was both insightful and empowering.

This year, Reflections also participated in the INDUS Hospital and SIUT Volunteer Program for senior students. Students from the middle section participated in a special awareness campaign organised by Shaukat Khanum Memorial Cancer Hospital, further emphasizing our commitment to service and health education.

Indeed, it has been a fulfilling year of growth, reflection, and purpose for the Tarbiyah Department. As we look forward to the coming year, we remain steadfast in our goal - to see our students grow into individuals who embody Islamic values with sincerity, wisdom, and compassion.

MESSAGE FROM THE PHYSICAL EDUCATION INCHARGE (MALE)

Dear Readers,

As I reflect on another thrilling year of sports at Reflections, I am filled with Joy and excitement. The sportsmanship displayed by our athletes have made this year truly memorable.

I would like to extend my heartfelt gratitude to my coaches, whose guidance and leadership have played a pivotal role in shaping our athletes into the champions they are today.

As we turn the pages of this yearbook, let us cherish the memories we've created together and celebrate the triumphs, challenges, and unforgettable moments that have defined this year in sports. With 50 diverse sporting events and 10 trophies secured, our dedication and talent shine brightly. Like last year, we also took our students to domestic sports tour where they stayed at SST Public School Rashidabad Tando Allahyar, Sindh and played a friendly match in Hyderabad.

Another significant initiative which the sports department took this year was to begin professional competitions from primary section. We believe this will improve sports activities from the grassroot level.

Allhumdulillah, our swimming classes and competitions were carried out smoothly, marking this year as the first full year of swimming.

Here's to another year of camaraderie, competition, and countless memories, on and off the field.

**Go Reflections!
Mahmood Raza**

MESSAGE FROM THE PHYSICAL EDUCATION INCHARGE (FEMALE)

The past year has been an exciting one for school sports, with 52 events and competitions taking place throughout the School Year 2024-25. Here are some of the highlights:

Team Achievements

- Our school's basketball team won both categories in the '3rd All Karachi Basketball Tournament (U-15, U-17)' and the 'TIS Inter-School Basketball Tournament (U-15, U-17)', defeating their arch-rivals in a thrilling finale.
- The throwball team won the 'Throwball Cup' and the 'TIS Throwball Tournament', showcasing their skills and teamwork.
- Our school's gymnastics team won the '2nd All Karachi Gymnastics Championship'.
- The taekwondo team brought home more than 30 gold medals in different weight categories.
- The athletics team were gold, silver, and bronze medalists in inter-school track events.

Sports Day and Inter-House Competitions

- Our Annual Sports Day was a huge success, with students participating in various track events.
- The inter-house competitions were fiercely contested, with Abu Bakr House emerging as the overall champions.

Coaching and Training

- Our experienced coaches provided expert guidance and training, helping students develop their skills and reach their full potential.
- The school invested in new sports equipment and facilities, enhancing the overall sports experience, Alhamdulillah.

The past year has been an incredible journey for school sports, with numerous achievements and milestones. We look forward to another exciting year, with new challenges and opportunities for our student-athletes.

My message for all is to always remember that your effort, dedication, and teamwork are what truly matter in sports. Don't just strive for winning, but for playing with character and respect. Push yourself to your limits, embrace challenges, and learn from every game, whether you win or lose.

Sundas Khalid

MESSAGE FROM THE ISLAMIC DEPT. HEAD (MALE)

Assalam o Alykum

Alhamdulillah, this year was full of learning, achievements and meaningful experiences in the Islamic Department.

A highlight was our spiritually enriching Umrah trip with students, a journey of deep reflection, learning and tarbiyah that left lasting impressions on all involved.

Our annual Seerah Exhibition continued with great success. We added new topics like the key events in Pakistan's history, Indus Water Treaty and issue of Palestine. For the first time we welcomed alumni to take part in an academic event at Reflections.

Our students shone brightly in many external events. At the LUMS Religious Festival, they won 2nd place in Naat, 2nd Best Short Film, and 2nd Best Delegate award. In the Inter-School and Madaris Arabic Declamation, we proudly secured 1st position and the overall team trophy, a big achievement! Alhamdulillah

Within school, students gave regular Zuhr bayans, and boys from Grades 10 and 11 led the Jumu'ah khutbah and prayers with confidence and sincerity.

We thank Allah for all these blessings and pray for more barakah and success in the years ahead. Ameen.

Mutee Ur Rehman

MESSAGE FROM THE ISLAMIC DEPT. HEAD (FEMALE)

کسی بھی تعلیمی ادارے کی کامیابی کا دارومدار اس کے افراد کے اخلاص اور جہد مسلسل پر ہوتا ہے۔ ریفلیکشنز محض ایک عام تعلیمی ادارہ نہیں جو مروجہ نصاب پر ہی اکتفاء کر کے اس میدان میں مصروف عمل ہو بلکہ نونہالانِ ملت کو ایک ایسی مضبوط و مستحکم تربیت کی راہ پر گامزن کرنا چاہتا ہے جو دین پر فخریہ انداز میں قائم رہیں

ہماری کوشش ہے کہ کتاب اللہ اور سنتِ نبوی صلی اللہ علیہ و سلم سے نسلِ نو کو عربی زبان سکھا کر ان کو اسلامی آداب و اخلاق سے جوڑا جائے اور ہم عربی زبان کے سکھانے کے لئے فقط نصابی تعلیم سے استفادہ کے قائل نہیں بلکہ پورے تعلیمی سال میں وقتاً فوقتاً غیر نصابی سرگرمیوں کا تسلسل بھی جاری رہتا ہے تا کہ طلباء دلچسپی اور دلجمعی کے ساتھ اللہ کے کلام کی زبان کو سمجھنے کا سلسلہ بشوق و رغبت جاری رکھیں۔

شعبہ عربی کے تحت مختلف پروگراموں کا سالانہ بنیاد پر اہتمام کیا جاتا ہے جو کہ طلبہ کے عربی مستوی کی بہتری میں انتہائی معاون ثابت ہوتے ہیں۔ پرائمری کے لئے عربی بول چال کو مزید دلچسپ بنانے کے لئے "سوق" کی اپنے لحاظ سے منفرد ایکٹیوٹی رکھی جاتی ہے۔ اسی طرح فراستِ عربی کے نام سے عربی حوار کو مزید مضبوط کرنے کے لئے مڈل کی طالبات کے لئے پروگرام کا انعقاد کیا جاتا ہے۔ اسی سلسلے کی ایک کاوش بین المدارس مقابلہ خطابت بھی ہے۔

اللہ رب العزت سے دعا ہے کہ ہماری کوششوں اور اخلاص کو اپنی بارگاہ میں شرف قبولیت بخشے اور اس کو امت کے لئے اور ہمارے ادارے کے لئے مزید نافع بنائے۔

نازیہ سمیر

MESSAGE FROM THE HIFZ HEAD

ریفلیکشنز حفظ پروگرام ایک معیاری حفظ پروگرام ہے جس میں ایک سال طلباء کی بنیاد یعنی قاعدہ ناظرہ اور تجوید کروائی جاتی ہے اور پھر تین سال میں مکمل حفظ مع اکیڈمک کروایا جاتا ہے ماشاء اللہ تقریباً اٹھارہ (18) سال سے ہمارے سینئر اساتذہ اور انچارجز کی ٹیم ہر سال حفظ کا بیج/دستہ تیار کرتے ہیں جو مکمل حفظ قرآن وفاق امتحان میں امتیازی نتائج حاصل کرتے ہیں۔ تلاوت کا شوق بڑھانے کیلئے حفظ وقرات کے مقابلے منعقد کیئے جاتے ہیں اس کے علاوہ زیادہ صلاحیت والے طلباء کو ایک سے ڈیڑھ سال کے چیلنجنگ وقت میں بھی قرآن کریم مکمل حفظ کروایا جاتا رہا ہے یہ کہنا بالکل بجا ہے کہ یہ ایک کامیاب حفظ پروگرام ہے۔ دعاگو ہیں کہ اللہ پاک ہمارے طلباء/طالبات کو قرآن یاد رکھنے اور عمل کرنے والا بنائے والدین، اساتذہ اور معاونین کیلئے صدقہ جاریہ بنائے آمین۔

فرزانہ خان

MESSAGE FROM THE COUNSELLOR

As we approach the end of the year, it is heartening to see how our teachers have played a significant role in shaping our students' personalities through the values of Salamah, Adl, and Afw. Our students, too, have embraced these concepts with sincerity, reflecting them in their actions and attitudes.

This year, we have also witnessed a positive shift among our parents, who are more attuned to their children's emotional and mental well-being. Together, they are helping to nurture a strong and supportive bond. For those among us who are emotionally broken, mentally exhausted, or still healing from grief, please remember: healing takes time. Be gentle with yourself and the one around you, lean on Sabar and Dua, and trust in the promise that "Allah does not burden a soul beyond what it can bear."

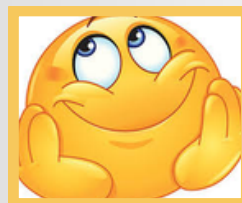

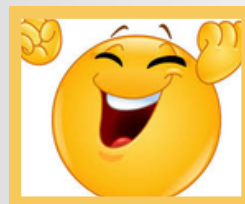

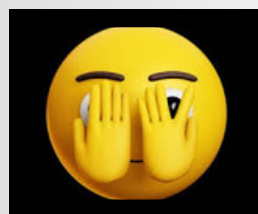

To our dear students, know that it's okay to seek help, to feel things, and to take your time in finding your path. Every experience, whether smooth or challenging, is an essential part of your growth. As you develop your personality with confidence, love, respect, and empathy, every obstacle becomes an opportunity to learn, and every mistake, a building block for strength.

Our younger learners are also beginning to understand the importance of respecting boundaries through the concept of Personal Space. As they continue to embody Salamah, Adl, and Afw, they are recognized and encouraged through the "Salamah Star," a symbol of their efforts and growth.

Let's continue to spread positivity and respect. May Allah Subhanahu wa Ta'ala help us become a Salamah—a source of peace and safety for others. Wishing everyone an even brighter year ahead.

**Warm regards,
Anum Mehmood**

excitement

MESSAGE FROM THE CLASS TEACHER 1 - A

As the year comes to an end, let's take a moment to celebrate all the wonderful things you've learned and the big and small successes you've achieved! You've grown so much this year, not just in your studies but also in your kindness, creativity, and friendships. I will always cherish the memories we've made together—every laugh, every lesson, and every special moment we shared as a class.

Think about how much you've learned—how many new words you can read, the math problems you've solved, the stories you've written, and the amazing art projects you've created. Your participation in sports day and your wins. Every time you tried something new or practiced until you got it right, you showed how determined and hardworking you are.

Remember, every time you try your best, even when something is hard, you're growing stronger and smarter. Keep believing in yourself, because you can do amazing things!

"You're braver than you believe, stronger than you seem, and smarter than you think." – A.A. Milne

As you enjoy your holiday break, spend time playing, laughing, and having fun with your family and friends. Explore the world around you, be curious, and don't forget to share your bright smile wherever you go.

I'm so proud of everything you've accomplished this year, and I can't wait to see the exciting things you will learn and do in the year ahead. I will miss you all.

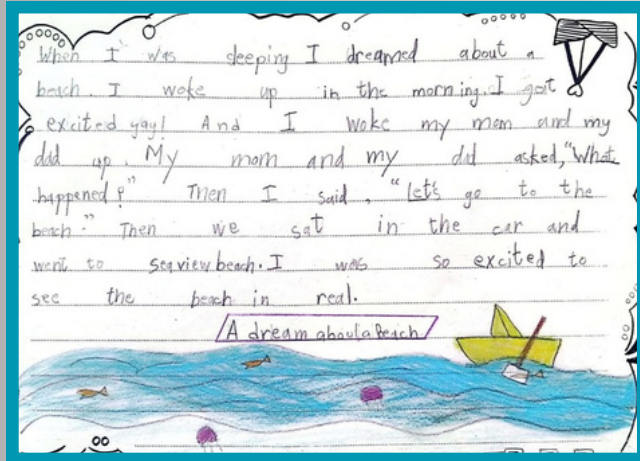

May ALLAH give you success and happiness.

With best wishes and lots of love,
Firza Amin

"Education is the most powerful weapon which you can use to change the world."

"Nelson Mandela"

This year has been an incredible journey in class 1B, filled with growth, laughter, and unforgettable moments. Each of you has contributed to making our classroom a special place, and it has been a joy to witness your development. From tackling challenging projects to celebrating each other's successes, we have built a strong community where curiosity thrived and friendships blossomed.

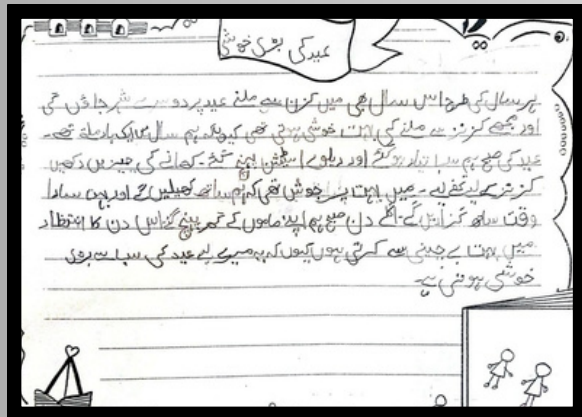

Throughout the year, I have seen you all embrace new ideas and work together as a team, which is a testament to your hard work and determination. Remember, every challenge is an opportunity for growth, and I encourage you to keep that spirit alive as you move forward. Continue to support one another, stay curious, and explore the world around you.

As we look ahead, I am excited to see all the amazing things you will accomplish. The future is bright, and I have no doubt that each of you will shine in your own unique way. Thank you for an incredible year filled with memories that I will cherish!

TEACHER 1 - C

As this wonderful year draws to a close, my heart is filled with pride and admiration for each one of you. You've worked with determination, embraced every challenge, and filled our days with laughter and warmth. Your kindness, creativity, and curiosity shines brightly, making the world around us a better place.

We've shared so many unforgettable moments together—crafting beautiful works of art, cheering each other on at Sports Day, and building amazing structures in the Builders Area. All the new math concepts we discovered were so much fun, and watching you all write such amazing stories was truly inspiring. Your teamwork, imagination, and enthusiasm turned every activity into something special.

I must say, you all took charge of your responsibilities with such maturity and dedication. Whether it was arranging the bookshelf or maintaining the board, Your collective effort and hard work made our classroom shine, and it was truly a joy to be a part of it all. I'm also so proud of how we memorized duas together, strengthening our hearts and minds. The memories we've made will stay in my heart forever.

Every step you take, no matter how small, is something to celebrate. I believe in each of you and can't wait to see all the incredible things you'll do in the year ahead. You are all so special, and I feel blessed to be your teacher.

May Allah bless you with success at every step of your journey. Wishing you a sparkling and joyous New Year, full of wonders and new adventures!

With all my love,

ASMA SAAD JAFRI

I love animals!

My favourite animal is dog.

I like dog in brown colour.

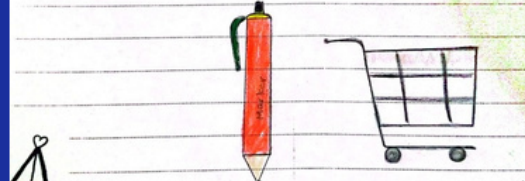

The baby dogs are cute. Big dogs bark. Dogs teeth are sharp. Some dogs are scary sometimes. I feel happy when I play with my dog.

BAREERAH UMAIR

A Shopping bag

When my aunt said to me, 'let's go somewhere', I was so excited to hear this. Then we went to Intiaz store for shopping. I bought a lot of fun stationery stuff over there like markers and pouch. I bought lotion too, for winters. After the shopping we came back home. I was very happy.

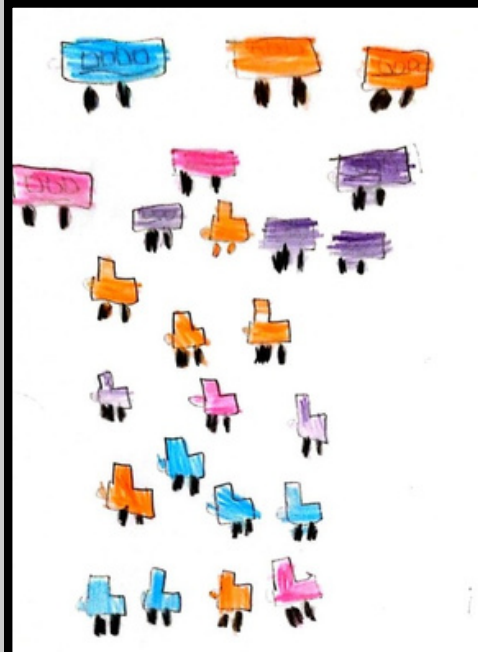

ESHAAL KHAN

I Love Allah

I feel excited to learn about Allah. I get so excited when I hear about Allah. He made the sun, the moon and the stars. Allah created the trees, flowers and animals. I feel happy knowing Allah loves me. He watches over me all the time. Allah listens when I talk to Him in my dua. My heart feels full of joy when I say Alhamdulillah. Learning about Allah brings me joy. I want Allah to send me and my family to Jannah. I Love Allah.

HIDAYAH HUSSAIN

I get excited when I play with my toys.

TEACHER 1 - D

As we approach the end of another academic year, I want to express my sincere gratitude for your hard work, dedication, and enthusiasm throughout the term. Your commitment to learning has been truly inspiring, and I'm proud of the progress you've all made.

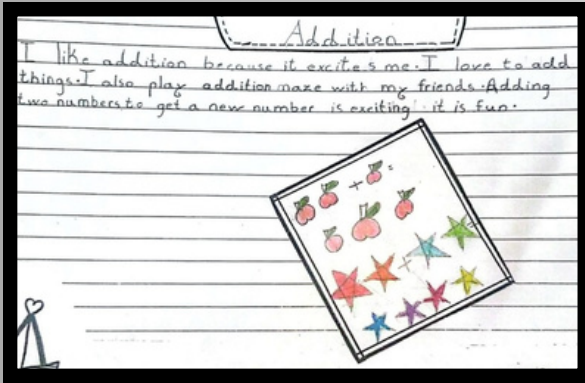

Looking back, I've been impressed by your willingness to engage in activities, ask thoughtful questions, and embrace new challenges. You've all demonstrated a strong desire to learn, and it's been a pleasure to witness your growth both academically and personally. I've also been touched by the kindness and support you show each other. It's a testament to the strong community we've built together in our classroom.

As you embark on your summer break, remember to recharge, pursue your passions, and continue learning in new and exciting ways. I encourage you to read, explore new hobbies, spend time with loved ones, and simply enjoy the freedom that summer brings. While the classroom may be quiet for a while, I know you'll return in the fall with renewed energy and a thirst for knowledge in your new class so all the very best for your new journey.

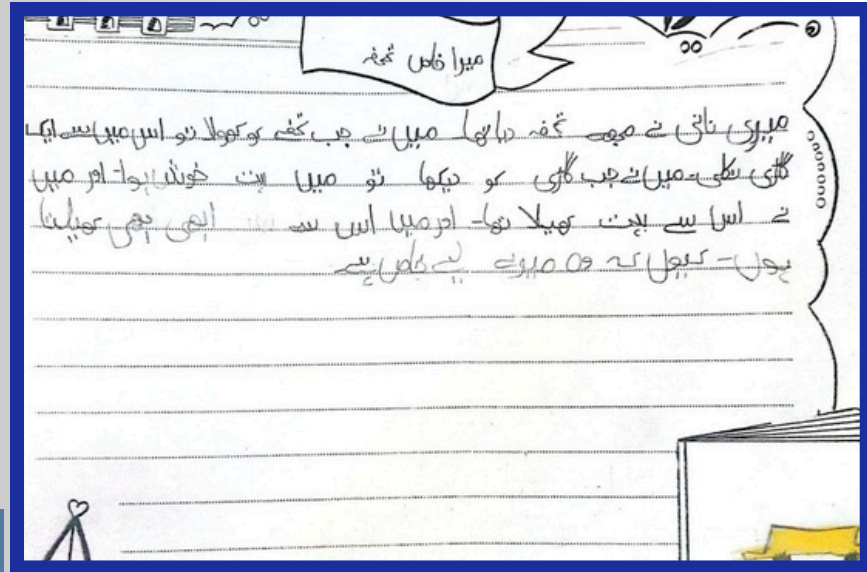

**Sincerely,
Aisha Ali**

I love to know
about animals!

Animals are living things. They grow and move. They need food, water and air to survive. I like cats most of all. we can keep the cat as a pet animal. cats have whiskers.

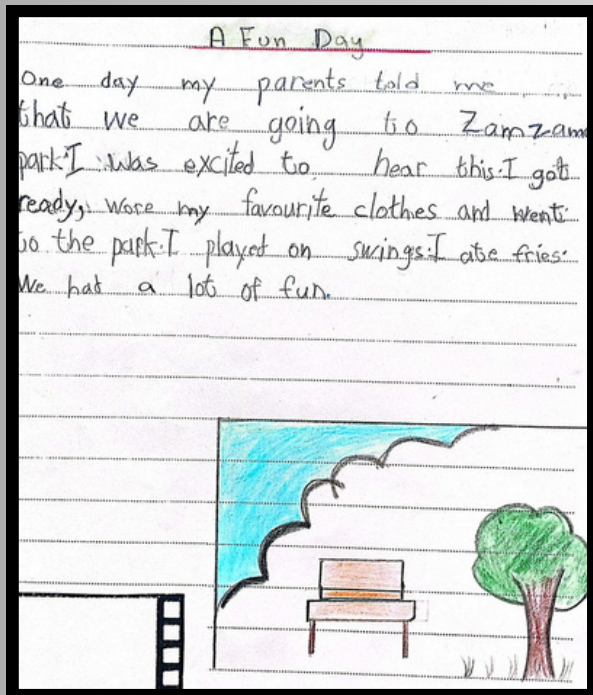

AREESHA HASSAN

Anget's

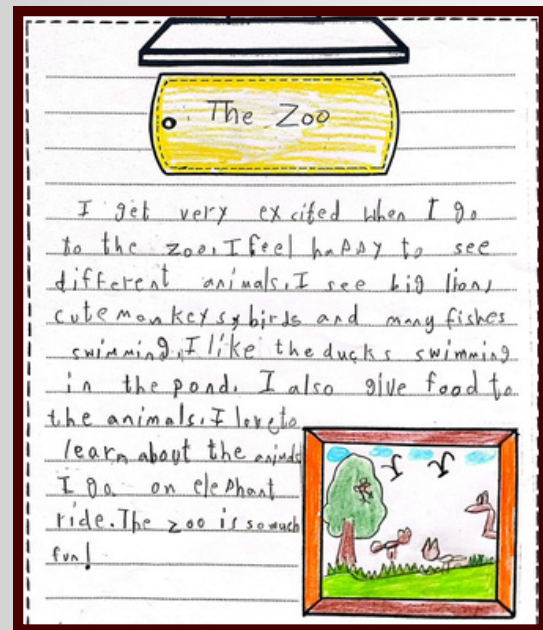

I am always excited when I read about angels. There are so many angels but I like two the most. Their names are Kiraman Katibein. They write our good and bad deeds. They stay with us day and night.

MESSAGE FROM THE CLASS

TEACHER 1 - E

This year has been fantastic! It is hard to believe that it is coming to an end. I want you to know that you and your classmates have amazed me in so many ways.

I have talked to some of you often. Some of you have shared your joys with me and made me laugh. Others have shared heartbreaking experiences that made me cry. Some of you have poured your thoughts and feelings into your writing. Some of you have discovered yourselves this year. Some of you have become leaders. Some of you have excelled at helping others. Some of you are still finding your unique place in the world, and that is okay, too. All of you made progress in some way. And that is what matters most.

Most importantly, believe in yourself. I will miss you next year, but I know that you must move forward in order to accomplish the great things that your life has in store.

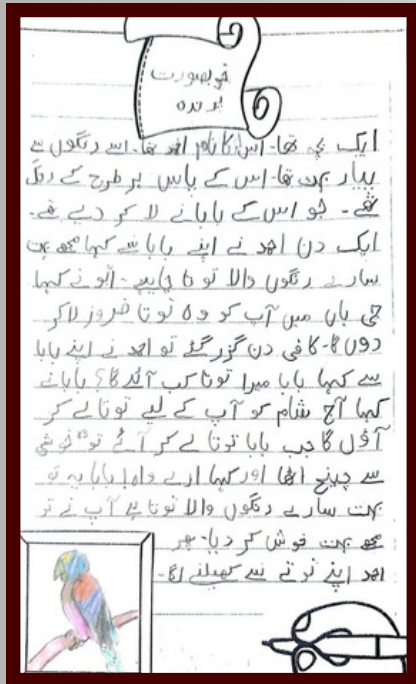

I am grateful that I had the opportunity to teach you .Thank you for a great year!

All the best !

Marryam Rasool.

"Alhamdulillah, as I reflect on our time together, I am filled with gratitude and pride. Dear students, you have grown not only in knowledge, but also in faith, compassion, and character. Your love for learning, your kindness towards one another, and your devotion to Allah (SWT) have made our classroom a blessed and joyful place. I am so proud of the confident, responsible, and empathetic individuals you are becoming. May Allah guide you on your educational journey and beyond, and may you always remember to seek knowledge, wisdom, and guidance from the Quran. Congratulations on completing another year of seeking knowledge, and may Allah bless you with success, happiness, and righteousness in all your endeavors!"

TEACHER 2 - B

Alhamdulillah, as I look back on this year with my Grade 2 students, I am overwhelmed with gratitude for the countless blessings and opportunities Allah has provided. This journey has been one of learning, growth, and nurturing young hearts and minds, and I am honoured to have been part of it.

From exploring new concepts to witnessing their personal milestones, these children have shown determination, creativity, and an eagerness to learn that warmed my heart. Beyond academics, the bonds of friendship and the values of kindness and respect that they displayed were truly inspiring.

To my dear students: May Allah guide and bless you in every step of your journey ahead. Always remember to approach life with curiosity, gratitude, and sincerity.

MESSAGE FROM THE CLASS

TEACHER 2 - C

"Believe in yourself, work hard, and trust in Allah-great things are waiting for you."

As I sit down to write this, my heart fills with gratitude and affection for each of you. This year has been nothing short of amazing, and it's all because of the love, kindness, and energy you brought to our classroom every single day. From the very first day I stepped into your class, I could see how special you all are ,not just as students but as individuals with bright minds and pure hearts.

You are not just Hifz students; you are a shining examples of intelligence. Watching you excel in your Quranic journey and grow stronger in character has been a blessing for me. Your achievements this year, from winning medals in the swimming contest to shining on Sports Day, are a testament to your talent, hard work, and team spirit. Beyond that, what touched me the most was how you always came to me with your problems, thoughts, and dreams. Your trust in me is the most precious gift, and I hope I've been able to guide you in the best way possible.

I have loved every moment we spent together, from the laughter we shared to the meaningful conversations that brought us closer. My dear students work hard, support one another, and always seek Allah's guidance in every step of your journey.

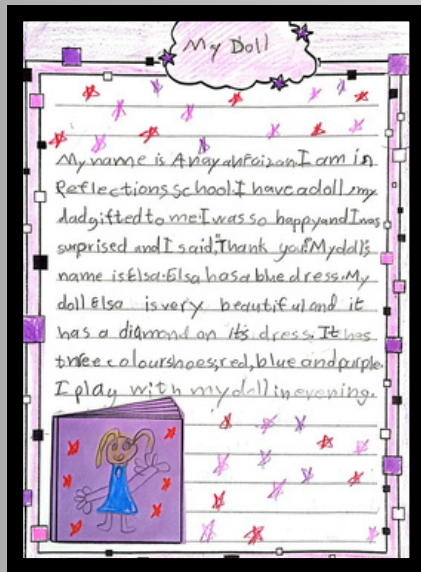

May Allah bless you with immense success, make your Hifz journey easy and rewarding, and guide you to become compassionate, wise, and strong individuals. Remember, no matter where life takes you, your teacher will always be praying for you and holding you in her heart.

MESSAGE FROM THE CLASS

TEACHER 2 - D

As Aristotle once said, "Educating the mind without educating the heart is no education at all." Class 2D embodies this balance, as they have not only excelled in their studies but also cultivated kindness, empathy, and respect for each other.

It has been a privilege and joy to serve as the home teacher for Class 2D. This vibrant group of young minds has continually impressed me with their curiosity, resilience, and camaraderie. Each student has brought a unique energy to the classroom, creating an environment rich in learning and collaboration.

From their unwavering determination to their willingness to support one another, Class 2D exemplifies the values of teamwork and growth. It has been inspiring to witness their progress, both academically and personally.

I am confident that these students will continue to shine brightly in their future endeavors, and I am proud to have been a part of their journey.

"Keep striving for excellence!"

I am extremely proud of each and every one of you! Your academic performance has been consistently excellent.

You actively participate in class, engaging with the material and with each other and the respect for teachers and peers is impressive and appreciated.

You demonstrate kindness, empathy, and helpfulness towards one another.

Your love for learning is evident in your enthusiasm and eagerness.

You consistently show up to class prepared and ready to learn.

Your positive attitude and energy are contagious and make the classroom a joyful place.

I appreciate your thoughtful questions and insightful comments.

You are a pleasure to teach and interact with.

Your growth and progress throughout the year have been remarkable.

Keep up the outstanding work,

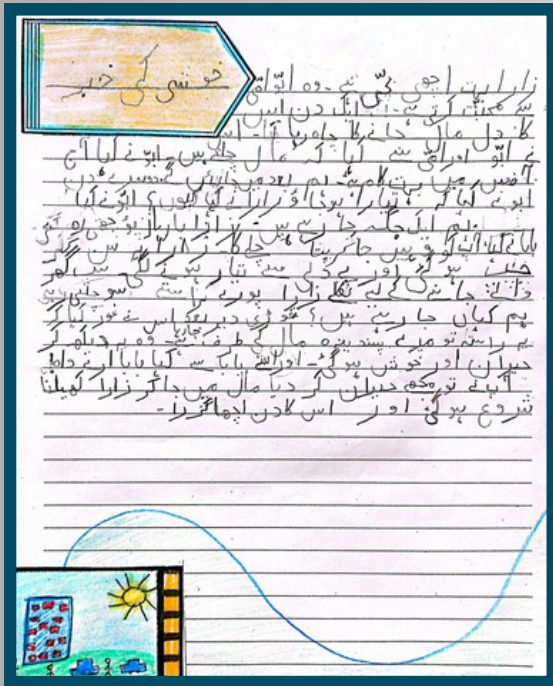

I am confident that you will continue to excel and reach new heights.

Remember to always keep learning, growing, and striving for excellence!

MESSAGE FROM THE CLASS

TEACHER 3 - A

As I sit down to write this, my heart is filled with pride. Each one of you has been a bright light in my classroom—full of curiosity, kindness, and intelligence that has amazed me every single day.

You have not only learned your lessons well but have also taught me so much in return. Your soft-spoken words, gentle hearts, and eager minds have made our time together truly unforgettable. Whether it was your thoughtful questions, your determination to learn, or the way you helped each other with kindness, you have shown that intelligence is not just about books and numbers, but also about the warmth you bring to others.

As you step into the next chapter of your journey, remember that you are capable of achieving anything you set your heart on. Keep believing in yourselves, keep dreaming big, and never lose the gentle kindness that makes you so special.

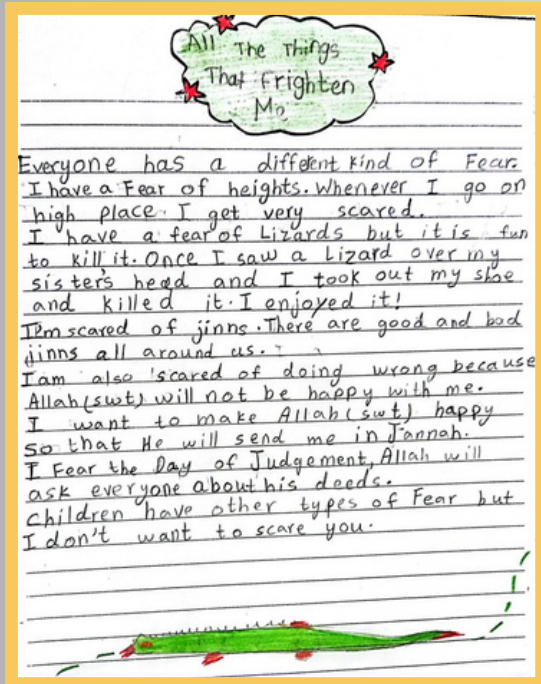

No matter where you go, remember that you will always have a teacher who believes in you and will always be proud of you. You will be dearly missed, my little ones, but I know the world is waiting for you with open arms. Go shine brightly!

With all my love and best wishes,

Fear of Centipedes.

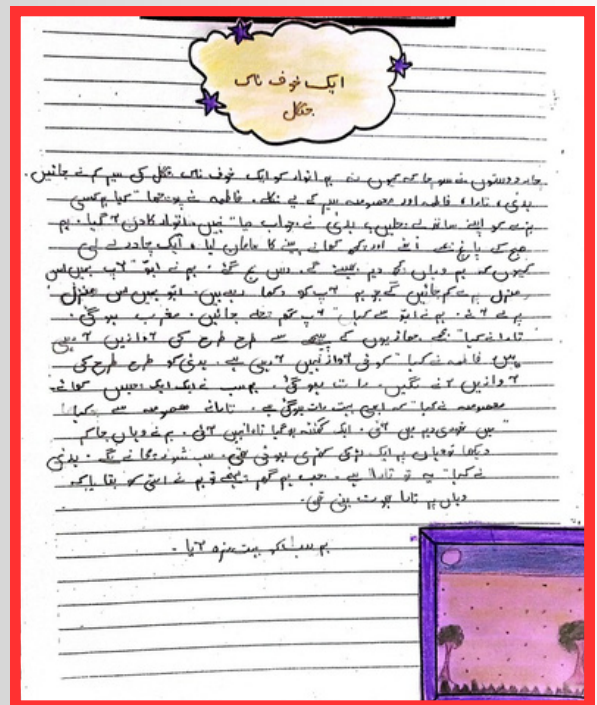

There are many people in the world and they all have some fear. But my fear is the most fearful! My biggest fear is centipede. I am afraid of them because they slither around. It happened on Monday night. I was going down stairs to get my slippers. When I reached the garden I noticed something weird slithering around. When I got a little bit closer, I finally noticed that it was a centipede! I quickly grabbed my slippers and ran back upstairs. It was like a nightmare. I was very scared. I hope it never happens again. May Allah protect us from dangerous insects.

MESSAGE FROM THE CLASS

TEACHER 3 - B

"The beautiful thing about learning is that no one can take it away from you."

As I reflect on this year as Grade 3 home teacher, I am filled with gratitude and pride. It has been an incredible journey watching my students grow, learn, and blossom into confident, creative, and curious individuals. Each one of you brought something unique to our classroom, making it a vibrant and joyful space.

This year, we tackled challenges, celebrated achievements, and built memories that I will cherish forever. I am so proud of how you supported one another and worked together as a team. Remember, the skills and values you have developed this year will guide you as you continue your journey.

As you move forward, stay true to your dreams, never stop exploring, and keep striving for excellence. May Allah bless you with success and guide you to be kind, thoughtful, and strong individuals.

**With love and best wishes,
Aisha Muhammad**

CLASS 3 - B

Fear

My biggest fear of Maths is "WORD PROBLEMS". One time we got them for homework. I was very nervous and scared. My friend asked me why was I sad. I told her that I couldn't do the homework. Then she said she will help me. I asked "Why don't you come to my house, we can study together. After school she came to my house and we managed to solve all the questions. They were a bit difficult. But we solved them all. At school we went to our class and gave our books to our math teacher. The teacher was impressed. She said "Well done" to us. We were so happy.

ABEEHA SHOAIB ANSARI

Fear Of Allah

We should fear Allah as we are Muslims.

Allah is the creator. He has created us. Allah

has created the world, stars and the universe. Allah has created every thing around us. Allah has blessed me with food and water. He has blessed me with a mind to think. At the day of judgement, He will ask me why didn't you do good deeds, even when I gave you a mind to think. If we don't listen to Allah He can put us in hell. Angels are on our shoulders, they are noting down what good things and bad things we are doing. The angels on our left side are noting down our bad deeds while the angels on our right side are noting our good deeds. If we don't listen to Allah's instructions, Allah will not be happy with us in the world as well as here after too.

MAARIFAH ALI

ایک دن علی اپنے ابا کے ساتھ گھر سے باہر آیا۔ وہ اپنا خوش حال دیکھ کر اس کو کہا "خوش ہو۔" علی نے جواب دیا "جیسے ہی وہ راتوں میں سو جاتا ہے، میں سو جاتا ہوں۔" ابا نے علی کو بتایا کہ وہ سو نہ سہا۔ علی نے کہا "ابا، میں سو جاتا ہوں۔" ابا نے کہا "جیسے ہی وہ سو جاتا ہے، میں سو جاتا ہوں۔" ابا نے علی کو بتایا کہ وہ سو نہ سہا۔ علی نے کہا "ابا، میں سو جاتا ہوں۔" ابا نے کہا "جیسے ہی وہ سو جاتا ہے، میں سو جاتا ہوں۔"

HANNAH LAKHANI

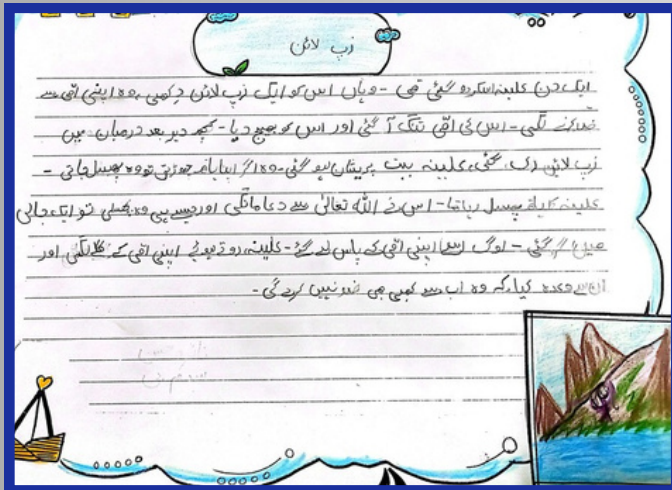

My fears

Fear is an Emotion. When people get scared of something. I have lots of fears. I fear spiders, lizards, sharks and big bugs. I have a fear of getting hurt and getting scolded. I fear darkness. I fear Allah (S.W.T) taking away my soul and taking away my blessings. I fear the Day of Judgement. We should fear Allah (S.W.T) most and I love Him the most. Allah is the most merciful. We have to face our fears. We can't get afraid of everything. I have a fear of being proud. Prophet (S.A.W) once saw a man who was walking with pride, the Earth opened and swallowed the man and Prophet (S.A.W) said he will keep sinking until the day of Judgement. I fear hurting somebody hard because Allah (S.W.T) gets very angry with people who do this.

“Every Drop Counts”

I have a fear: What if
all the water on Earth
goes away?

If our water goes away we can't survive.
Every one will die. There will be no life
living things like plants, animals, birds and
humans will die. There will be no food.
The environment will change. The land will become
a desert. There will be nothing to eat
or drink. The animals that live in oceans
will die. Water is the most important part
of our life.

BAREERAH YOUSUF

Fear

My biggest fear of Maths is solving word problems. One day my teacher gave us an assignment of word problem which we had to complete within ten days. I told my teacher that word problems are too difficult for me and I can't solve them. She asked me to at least try. At home I tried solving the word problem and my mother helped me in the rest. My teacher was so happy because I tried. Now word problems are not scary for me.

ZUJAJA SAUD

Lizards
give creeps

Fear is something you are scared of. Like I am scared of lions, lizards, cockroaches and reptiles. I am scared of them because lions are big and like to eat us raw. Actually I am not scared of lizards, we think we are scared of them but we do not like to look at them as they are disgusting. I fear reptiles because they bite and it feels burning, lastly cockroaches also bite and it burns. I also fear horror videos because they are very scary things and tell scary stories too. I love Allah (swt) but I am scared of Him because He can stop talking to me, take away my food, water and other supplies. I fear dark places because it gives ghostly vibes. I also fear kidnappers, thieves and bad people.

TEACHER 3 - C

As I look at this wonderful year with my girls, I am filled with pride and gratitude. Each day in our classroom was a new adventure—one filled with curiosity, laughter, and the determination to grow. Watching my students blossom, not only in their academics but also in their confidence and kindness, has been the most rewarding part of this journey.

From mastering new concepts in mathematics to exploring creative storytelling, and from building strong friendships to developing resilience in challenges, this year has been a testament to their incredible potential. Their enthusiasm and willingness to learn have made our classroom a space of discovery and joy.

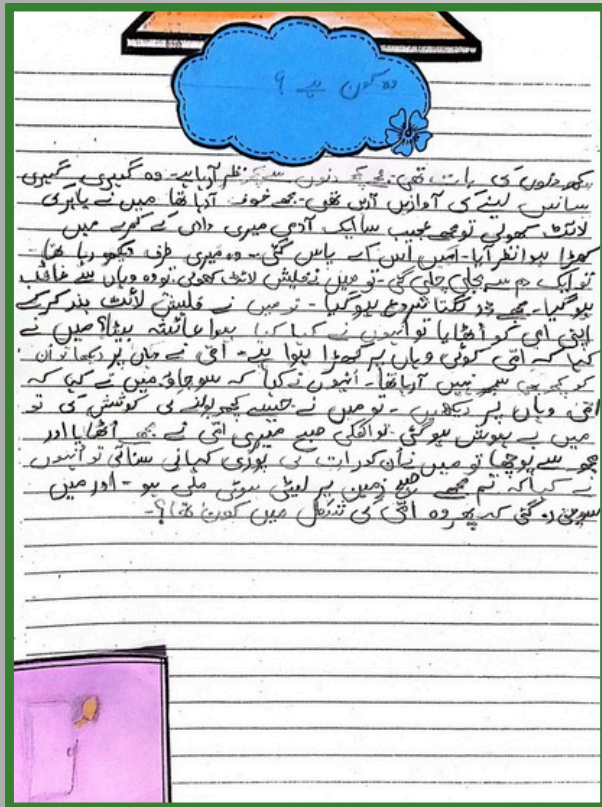

It has been an honour to guide and support such bright young minds. As they move forward, I am confident they will continue to shine, dream big, and make a positive impact on the world around them.

Here's to another year of learning, growth, and success!

كَيْفَ نَتَغَلَّبُ عَلَى الْخَوْفِ؟

١- وَإِذْ يَدْعُوكَ بِالتَّيْمَانَةِ وَلَا تُخَفِّفْ أَهْرًا.

٢- اِشْجِزْ خُطُوَاتِ الْفُرْسَةِ وَهُوَ لِتَهْقِيقِ اَهْدَافِكْ.

٣. اِئْتَرَفْ بِخَوْفِكَ اِنَّ الصَّوْفَ اَمْرٌ طَبِيعِيٌّ .

٤- قَالُوا إِنَّهُ تَبَاطُلَ أَخْبَارٍ ۚ فَتَوَلَّوْا مَا بَيْنَ يَدَيْكُمْ ۚ

٥- تَخَذْتُ مَخَانِئِيكَ وَفَكَرْتُ اسْتِجِيعُكَ أَنْ تَتَلَبَّ عَلَيَّ وَلِمَاذَا؟

ESHAL KHAWAR

الْخَوْفُ

الاسم: زهد نور

مَا هُوَ الْخَوْفُ؟

الْقَوِّفُ سَعْفُورٌ سَبْعٌ تَعْفُورٌ وَ عِنْدَمَا تَرَى أَوْ تَسْمَعُ
شَيْئًا صَنِيفًا -

أَقْسَامُ الْخَوْفِ:

١- اُنْفِثْ فِي الْعِدَّةِ اِنَابَ.

٢- التخفيف من الظلم.

٢. التَّوَضُّعُ، صَوْنُ الْمَاءِ.

الدُّعَاءُ عِنْدَ الْخَوْفِ:

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ لَا إِلَهَ إِلَّا اللَّهُ مُحَمَّدٌ رَسُوْلُهُ

أَلَصَّفُ الثَّالِثُ: ٧

ZAINAB NAVEED

Sometimes maths looks scary to me. Looking at big numbers or word problems, I get nervous. But when I keep trying and ask for help, it becomes fun. I have learnt that by practising more and more my fear goes away and I become better in maths. Facing my fear and working through word problems is great fun learning for me. By breaking problems into smaller parts, solving complex equations become very easy. So my friends don't stop because of the fear of maths and enjoy the learning.

HAFSAH SAIF SHAMSI

I fear my brother because he spoils my books and he takes away my things. When I play with my friends and cousins he destroys our settings.

When he is angry he comes and fights with me
and breaks my dolls.

I fear Allah (swt) because if I do some things
wrong He will punish me, but I love
Him and He loves me.

I am not scared in the night because
I sleep with my brother.

HAFSA FAHAD TALPUR

MESSAGE FROM THE CLASS

TEACHER 3 - D

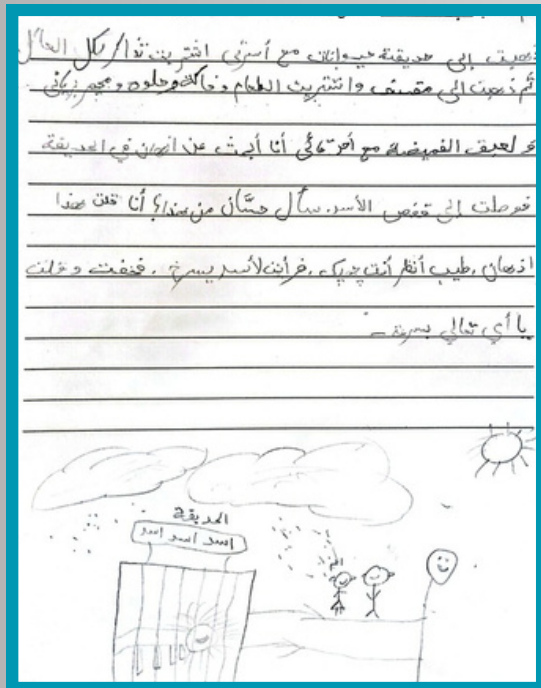

**“Education is the most powerful weapon,
Which you can use to change the world.”**

Teaching students and being part of their learning journey is a profoundly rewarding experience. Standing in front of a classroom filled with eager minds, I felt a deep sense of responsibility and joy. Guiding them through lessons, fostering curiosity, and witnessing their growth gave me immense satisfaction. Balancing classroom activities while ensuring each student felt heard and included was both challenging and fulfilling. There were moments of laughter, discovery, and even frustration, but each contributed to a vibrant and dynamic learning environment. The bond we built as a class reminded me of the profound impact education has, not just in imparting knowledge but in shaping lives and inspiring futures.

Darkness

One day, I was sitting alone in my room suddenly, the power went out and all the lights turned off! I got so scared! I thought there were ghosts around me. I started crying. I cried and cried until I couldn't breathe anymore. And then I went to sleep. I slept for a while. Suddenly, the lights turned on and I woke up. I saw my mom and I was so happy. I hugged her and told her how scared I was. She told me that it's okay. I hate darkness. And I hate living alone in my room. It's my worst fear!

MUHAMMAD UMAIR

Ghost and the Tree

I am scared of Ghosts. They are ugly.

One day, I was sitting in my room. I saw a ghost on the tree. I got very scared.

I could hear scary voices and I could see red eyes under my bed. I was sweating from fear. I shouted saying "Mother! 'Mother! Help me, I am in trouble!" My mother came properly and hugged me. I was relieved, but I couldn't sleep. My mother told me that there wasn't any ghost, it was just a shadow of the tree.

MUHAMMAD HASSAN

I am afraid of the darkness.

HUSSAIN AHMED

When I am alone I am scared of

monsters because I feel that they are around me.

MUHAMMAD KHIZER

CLASS 3 - D

Why am I
scared?

I Fear Him because if I do wrong He will punish me.

I also fear black panther because it has sharp claws.

I fear shaytan because he brings bad dreams at night.

I fear my mom because when I do something wrong she scolds me. I also fear my dad because if I break something he gets angry...

MUHAMMAD ZAYYAN KHAN

“Fear of Living Alone”

One day, I was riding my bicycle on the road, and then suddenly the electricity went out. But there was some light at the end of the street. When I reached my home, I heard a scary voice coming from my room. I thought there was some one in my bedroom. I took the torch, then I went into my bedroom to see what it is. But surprisingly there was no one. I heard a strange voice like someone was trying to break the window. I was alone in my home. I felt too scared and anxious. I decided to go out of the house but I couldn't go because it started to rain. Suddenly my family came and I told them the whole story. It was my worst day because I had a horror experience that made me very frightened.

**IBRAHIM AFAQ**

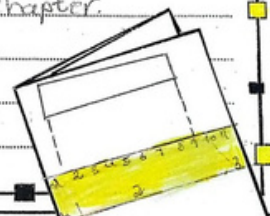

كَنْزٌ قَوْلٌ

[illegible]

MUHAMMAD AFNAN

Fear of length Chapter

I am scared of length chapter because when an object is placed on some other number except zero then it gets so difficult to measure it. Also when the ruler does not fit in then it is a huge problem to place the ruler again and again to measure the object. But it is the easiest chapter.

HUZAIFA MEMON

MESSAGE FROM THE CLASS

TEACHER 3 - E

"Your potential is endless, believe it, chase it, achieve it."

To my delightful, mischievous, and endlessly energetic students of 3F, you've been a beautiful challenge and a source of unparalleled joy. When we first started this journey together, I wasn't sure how I'd manage the whirlwind of your boundless energy and cheeky antics. But as time passed, I discovered the sparkle hidden in your giggles, your curious minds, and your big hearts. You are the reason my days were filled with laughter, learning, and love. Your unique personality turned our classroom into a lively haven where every moment was unpredictable yet so special. You've taught me to embrace chaos with a smile and to see the world through your sparkling eyes. My super joyful, hyperactive batch, you've not just captured my heart you've filled it with memories I'll treasure forever. Always remember, you're not just my students; you're my little stars who made my journey as a teacher incredibly rewarding and unforgettable.

**Your Teacher,
Yusra Ali**

CLASS 3 - E

Follow Allah's commands

I fear Allah (SWT) because He is the King of the worlds. He has made everything. He has made man and animals.

We must listen to Him, He will love us and send us to Jannah.

I fear bad people who steal things. They steal mobile phones and other things.

I fear my teachers because if I don't do my work she gets angry.

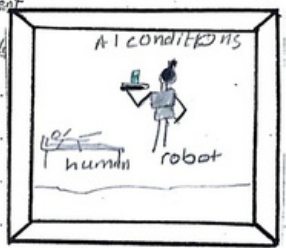

MAZIN SARIM

Artificial Intelligence

There are a few potential and negative of AI. I have a fear that AI could lead a large scale of unemployment. It can increase human laziness because robots will control our lives. We will become so dependant on technology for our daily tasks. It'll effect learning and development of our brains and health.

Humans will become less creative and active. As they will start relying on them almost for each and every thing.

IBRAHIM OSAMA KHAN

Fear

- 1) Fear of 8 times table**
My biggest fear is learning 8 times table because it is so hard and looks scary. My parents and brother, sister know 8 times table by heart. I also want to learn it like them.
- 2) Fear of word problems**
When I solve a word problem I fear that whether it is right or wrong I get very nervous while solving them.
- 3) Fear of Exams**
When I start my math exam I get nervous because if I make mistakes I get upset.

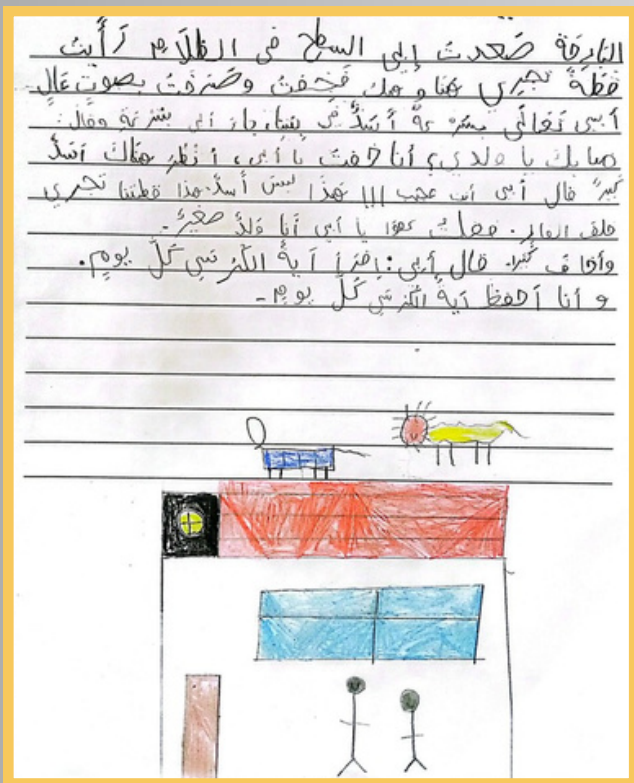

MUHAMMAD HAMZA

Fear

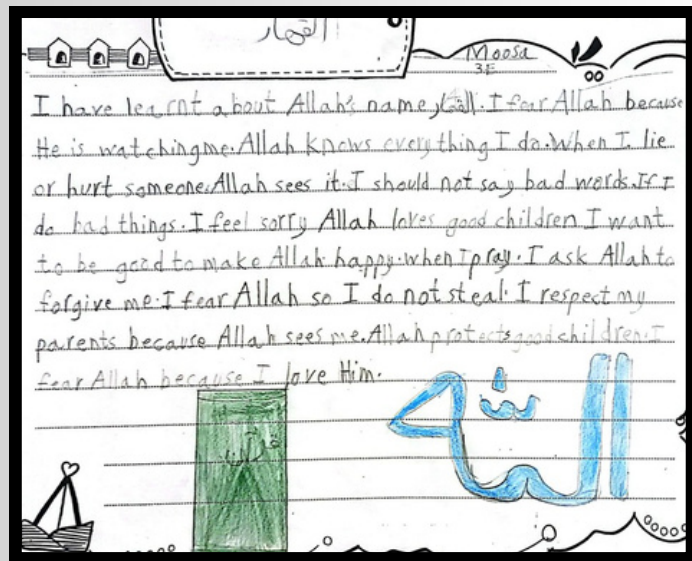

I have a fear of not doing good in Maths. When I don't practice regularly, I face difficulty in solving problems. I forget tables when I don't revise often. First in division I couldn't understand how to do it, but now I know how to divide. With practice, every topic becomes easier.

MESSAGE FROM THE CLASS

TEACHER 3 - F

Another year of learning and growing is ending here but it is just the beginning of a new, exciting, full of energetic year of your school in which you're going to learn more, improve more, become more gentle and kind InshaAllah.

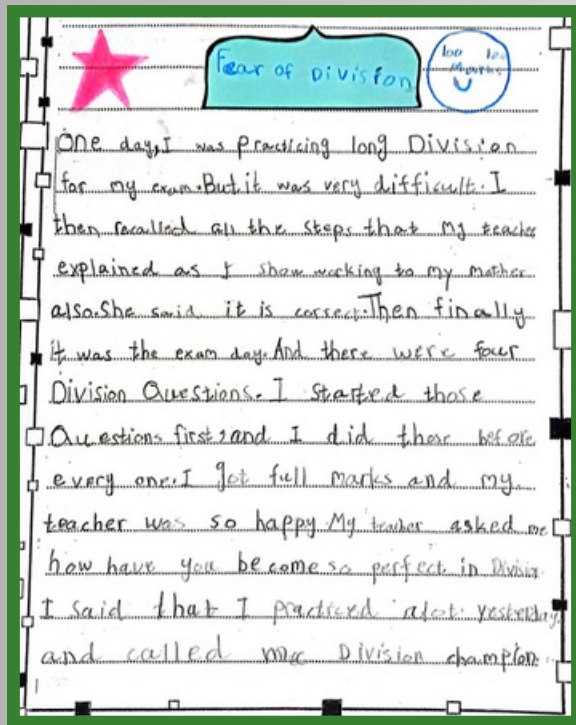

The year which is ending is leaving a lot of memories to cherish. I feel proud of you seeing you work so hard everyday as a class and as an individual too. The day when you got a position in Maths smart, the day when you participated in sports day and many other days you've spent to improve your curricular and co-curricular skills along with your Hifz studies, made me happy too.

I wish you all the very best for upcoming years of learning journey and wish you all become a better Muslim for yourself, your family and for the society.

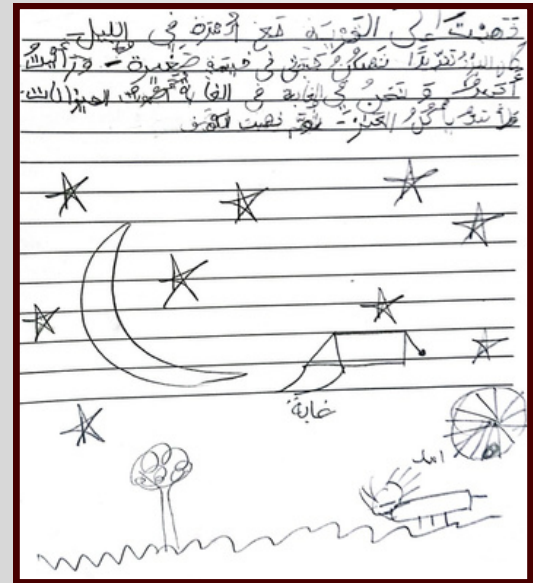

Your well-wisher,
Somia Mohsin

Fear of kidnapping

One day in Saudi Arabia my cousin's family was performing Umrah. Three of my younger cousins were sleeping on the wheel chair. A kidnapper came and almost kidnapped them. When my uncle saw them he got worried and tried to catch the kidnapper but the kidnapper ran away. Then they went to the hotel and had lunch. They were all very terrified after this. When it was afternoon they went for Salah and prayed to Allah for their protection. After they went to the hotel and slept. From that day I got so scared of the strangers. I always use to think anyone could kidnap me if I go outside.

ARHAM ANAS MANIYA

Allah is watching us

I Fear Allah because He is Looking at me all the time. When I do bad things I get worried.

I fear bad people, Sometimes they kidnap children and take away our things.

I am also scared of scary animals, Lions and tigers attack us and hurt us.

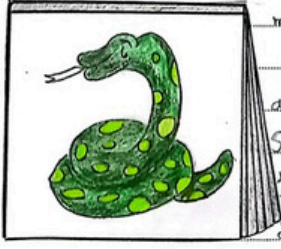

I fear lizard and mouse when they bite, it hurts a lot.

I am scared of storm because things are flying, people fall and cars have accidents.

MOHAMMAD HISHAM SARWANA

SNAKES

There are a lot of snakes around the world. Some are dangerous and some of them are not. Snakes can kill a person in one bite. Snakes have killed a lot of people around the world. I am a friend of black snakes because they are very terrifying. They can eat me and I wouldn't be able to save my life. The dry scale on the snakes body make me feel very scared. We should all stay away from snakes. Snakes also have very sharp teeth and they have a dangerous venom too.

MUHAMMAD IBRAHIM BIN YASIR

Bumble bee visits our class.

Allah loves me, at all times but I fear Him. When I do bad deeds.

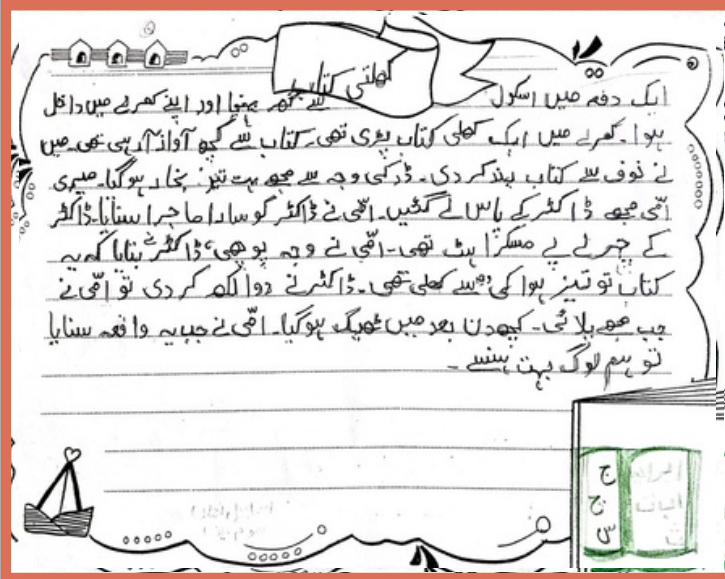

I fear the cars on the road, sometimes they have accidents and people get hurt.

I fear nights because jinns come out at night when we go out we must recite Maazain.

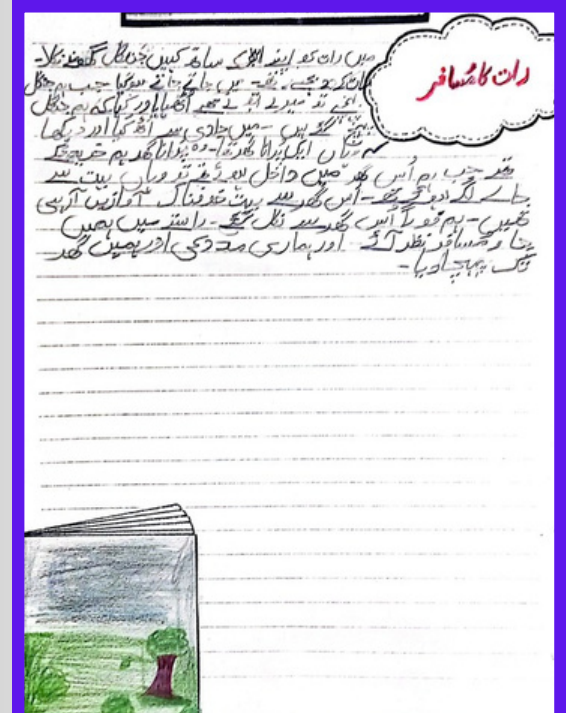

I am also scared of bumble bee, sometimes it comes to our class and all of us start running here and there.

MESSAGE FROM THE CLASS

TEACHER 4 - A

As this year ends, take a moment to reflect on your journey—your efforts, challenges, and successes. Remember that every step of learning is a step closer to fulfilling your purpose in this world.

The Quran reminds us:

"And say, 'My Lord, increase me in knowledge.'" (Surah Taha 20:114)

Seeking knowledge is a lifelong journey and a noble act in Islam. The Prophet Muhammad (ﷺ) said:

"Seeking knowledge is an obligation upon every Muslim." (Ibn Majah, 224)

No effort in education is ever wasted. Every challenge you face shapes you into a stronger, wiser, and more capable person. Every lesson you learn is a step closer to success, not just in academics but in life. Keep striving with sincerity, patience, and unwavering trust in Allah's plan, for He rewards those who seek knowledge with a pure heart.

You girls are truly remarkable, and the time I have spent with you has been nothing short of unforgettable moments. Your dedication, resilience, and spirit have inspired me, and I have no doubt that each of you is destined for greatness. May Allah guide you, bless your journey, and grant you success in both this world and the Hereafter.

Keep believing in yourself, keep working hard, and never stop dreaming. The future is bright, and it belongs to those who never give up!
Best wishes for your future!

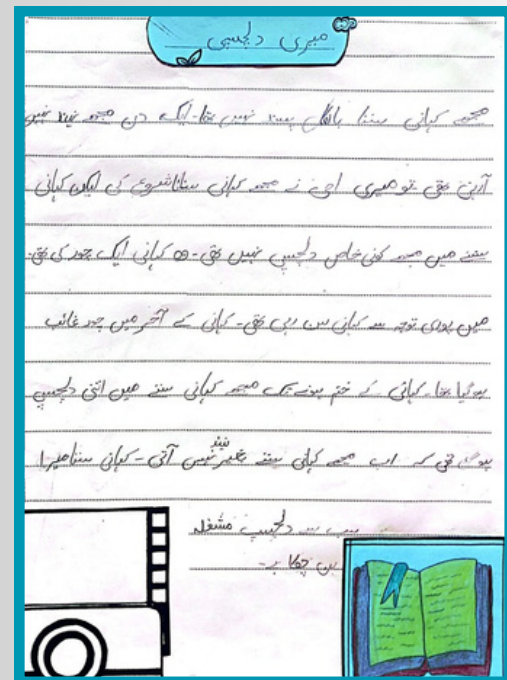

Regards,
Rukhsar Batool.

Water Pollution occurs when dirty things like trash, chemicals and dirt get into the water. It becomes unhealthy and dirty. It can cause a lot of problems for humans, they become sick. It can be harmful for plants and animals too. Pollution disturbs the balance of the nature. It also costs money to clean up. It also changes water temperature and makes water quality unhealthy. We can reduce water pollution by properly disposing of waste and using eco-friendly products.

كَانَ هَذَا الْيَوْمُ يَوْمًا مُمَرِّجًا
لَا لِي أَحِبُّ الْمَطَرُ

RUFAIDA BAIG

How maths help me solve real-life problems.

To me, mathematics is a very interesting subject because I can use it anywhere including academics as well as in daily life. By using many types of mathematical methods like when I go for groceries with my mother, I can easily count, add and subtract money. Being familiar with time questions, I can see clock and check time. I can also determine quantities like length, mass and volume of the things by using division methods. Moreover, I can check scale on thermometer when I feel sick. I can count tiles in my bed room by using multiplication. This is how I find mathematics in solving my real-life problems.

SARAH ARSALAN ZUBAIRI

اللَّعِبُ
أَشْيَ مِنْهُ. أَنَا أَحِبُّ

MESSAGE FROM THE CLASS

TEACHER 4 - B

As I reflect on this year as a Grade 4 home teacher, I am filled with gratitude and pride. It has been an incredible journey watching my students grow, learn, and blossom into confident, creative, and curious individuals. Each one of you brought something unique to our classroom, making it a vibrant and joyful space.

It has been such a joy watching my students grow throughout the year!

I have seen each of them improve, both academically and personally. They have worked hard, tackled challenges with enthusiasm, and supported one another every step of the way. It's amazing to see how much they've learned and how confident they have become.

I am so proud of their accomplishments and I know they are ready for the exciting challenges that Grade 5 will bring. This group of students will always hold a special place in my heart. Keep asking questions, stay excited about new challenges, and believe in yourselves—you're capable of amazing things. I can't wait to see how you continue to shine in the years ahead!

Best wishes to you all,
Eman Fatima

CLASS 4 - B

There are lots of interesting things that I do but the most interesting thing that I do is cycling. I started cycling when I was 6 years old. Cycling is so much fun. It keeps you energetic, healthy and happy. It's a sport that you can enjoy with your friends which keeps you fit and you can get fresh air. Sometimes I have cycling race with my friends in my neighbourhood. It helps the environment because it doesn't use any fuel. I think everyone should ride cycle regularly because it's a good exercise and make out heart strong. Cycling tournaments takes place worldwide, that's why I want to become a cyclist. It brings joy and makes every day feel like adventure.

Allah has told us to take
interest in every good deed
and I am also interested in the
good deeds ^{that} Allah has said. I am interested
to help old people and respect my
teachers, obey Allah and our parents
and be polite to everyone, be kind
to our classmates, respect elders and
younger siblings and to pray salah and
recite Quran.

Baking is an interesting activity it helps you make amazing treats. I love baking. We can bake brownies and so many desserts. I am very good at making brownies. It's interesting activity and my mother allows me to go in the kitchen but always says to be careful. I burnt my hand many times, but I have to be more careful. When I made brownies for the first time they were delicious but my mother didn't eat them because she doesn't eat sweet things. I'm an expert in brownies and

**ZOHA KAMRAN**

Reading is exciting. It leads to amazing things. It takes you to explore new and amazing worlds.

I started reading when I was five years old. When I was young, I used to think reading was very boring and it's a waste of time but when I was six, I realized reading is interesting. you can learn about anything without going anywhere. It teaches us new things about history, space, science and even takes you in the world of mystery, fairy tales and games. I learned when we read books it increases our knowledge, improves our vocabulary. I learned about plants, animals and spices from other countries. My parents were very happy when I became a star reader in grade 1 and 2. I stopped using my mobile and started reading books. My mom taught me to appreciate books.

I have finished reading all the books that my mom bought for me. I should read more books as it increases knowledge. Remember if you think books waste our time you are wrong. Mobile wastes our time not books.

nature is full of angles and they are all around us if we look closely. when
 a bird flaps its wing to fly it creates an angle. when birds fly make a
 shape that has angles. When plants make it self to get sunlight they use specific
 angles to grow. In a butterfly it has angles. Every thing in a class room is full with specific
 angles. A kite which is the known to cut food is a different
 angle and get different shapes. A diamond shape can be called
 as an angle. A kite angle is the shape and design
 to solve problems and create beautiful angles and things
 about the angle of the natural world.

CLASS 4 - B

"THE BERMUDA TRIANGLE"

The Bermuda Triangle is located in the Atlantic Ocean. The Bermuda Triangle is famous because people tell different stories about it. The ship and plane which goes near or through it disappears and leaves no trace behind. I think the Bermuda Triangle is interesting because I want to know more about the Bermuda Triangle's mystery, because scientists claim that Bermuda Triangle contains a gas which is causing these destructions and that there is nothing mysterious. The name of the gas is Methane gas but some scientists say a comet crashed 11,000 years ago. Scientists still don't know the exact reason. I hope that scientists would find the exact reason in the future. No one was ever able to escape it.

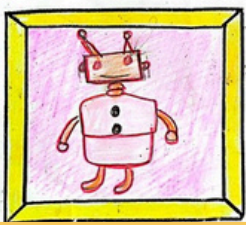

Bermuda Triangle after collision.

INAYA MUNAWAR

Amazing Robots

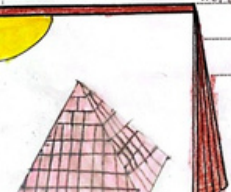

Robots are amazing machines. They can be big or small and can be evil or sweet. We can use robots in different ways like: Nanorobots can be used to inject medicines to the specific parts of a body. Robots can be our friends, they can play with us and tell stories. Robots can help us in home chores. They can go to the bottom of ocean where humans can't go and the surface of the Moon. I think scientists should invent more advance types of robots. I find them interesting because they help us a lot.

HAUSA BILAL

Egyptian Pyramids

I find pyramids interesting because they are huge and historical. They pyramids are present in Egypt. They have triangular faces. They were made when pharaoh ruled Egypt. They are interesting for me because they are huge and I wonder how humans constructed those enormous pyramids without using any machinery. People from all over the world visit the pyramids and they praise the people who made them. The pyramids are 2,700 and 3,500 years old and they were built between 2,500 and 2,500 BC. The workers took 20 years to make them and they are made up of lime stone. There are king and queen chambers in the pyramids. They are included in the list of seven wonders of the world.

MANAHIL FAISAL

Theme: Interest Topic: Kindness to Animals.

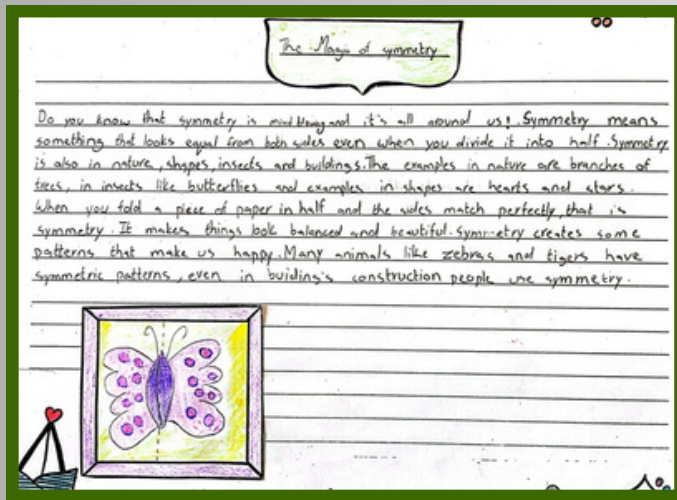

Hadith: Nabi (s.a.w) said "Who ever takes interest in seeking knowledge Allah will make the path to Paradise easy for him." (Sahih Muslim 2).

In Islam Allah and Nabi (s.a.w) guides us to take interest in good deeds. I am also fond of animals so I am interested in giving food and water to animals like birds and sometimes to street cats. In this way I make Allah happy and get good deeds.

MESSAGE FROM THE CLASS

TEACHER 4 - C

Assalamoalaikum,

As I look back on this past year with my grade 4 girls, I can't help but feel a deep sense of pride and fulfillment. At the beginning of the year, they came up with a mix of excitement and nervousness. Some were eager to participate in everything, while others took their time to open up. But as the days passed, I saw them form strong friendships, support each other, and develop a sense of confidence.

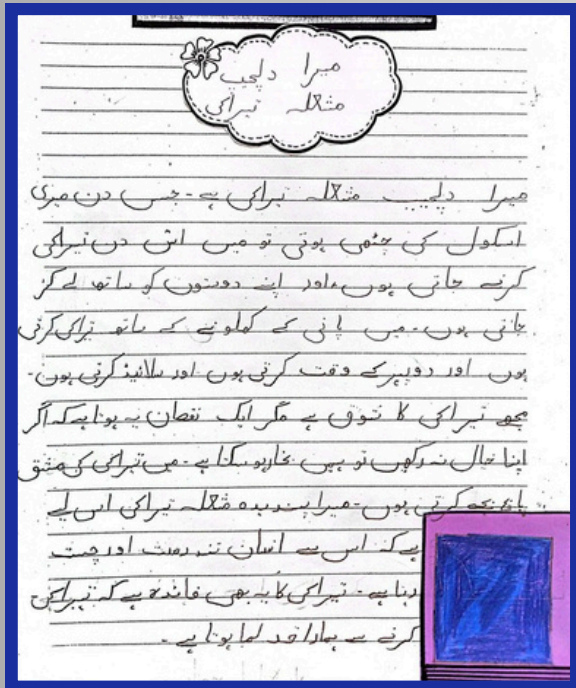

It has been a unique and inspiring journey as the girls spent much of their time memorizing the Quran while also striving to excel in their academic subjects. Balancing both required commitment and discipline, and I have witnessed their incredible efforts every step of the way.

Watching them grow morally, academically, and emotionally has been an incredible experience, and I am grateful to have been a part of their journey.

Science is Interesting.

I love watching videos related to science. I watch about the solar system and about the food chain. In the solar system video I watch that how was our sun made and in the food chain videos I learn that how jungle lions get their food. I also watch about the daily life of the animals like a cat.

MUHAMMAD UMAR KHAN

الشوق والرغبة

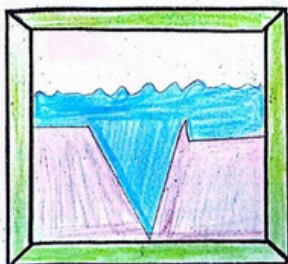

أنا أحب كرة القدم، كرة القدم باب، أنا أحب كرة القدم، كرة القدم أسود، أنا أحب كرة القدم لأن عندنا لعبة قوية، جسم الإنسان، بعد المباراة أنا أعجب كثيرًا.

أنا أحب رياضة كرة القدم، أنا أحب كرة القدم، أنا أحب كرة القدم، كرة القدم لعبة جميلة جدًا، أضع عليها أكثر من مائة عام. أسيّر كوكب موري هو مخترع كرة القدم، في كرة القدم الذين الذين الذين أكثر عدد من الأهداف هو يفوز، عندما تصيب الكرة اليد تكون القرص لفريق المخالف ركلة، وأنا أحب كرة القدم كثيرًا جدًا.

SULAYMAN TAYYAB

Mariana Trench

I have found the Mariana Trench the most interesting as I know some facts about it. The Mariana Trench is the deepest part of the ocean reaching 36,000 feet deep in a spot called Challenger deep. The trench was first discovered in 1875. The first people to dive in challenger deep were Don Walsh and Jacques Piccard in 1960. The Trench is still shifting and becoming deeper and it is just a giant crack. The coolest fact is the same trench animals haven't changed much for billions of years.

MUHAMMAD ABDULLAH J. MANGRANI

Math in Nature

Math is amazing because it's all around us even in nature. let me share some interesting examples.

Math in trees:

Branches of tree grow at special angles and leaves are arranged in special patterns.

Math in ocean:

Waves move in a pattern and ocean animals like Octopus and Fish have cool shapes.

Math in Flowers:

Petals are arranged in a special order and they have beautiful symmetry.

I love maths because it's everywhere.

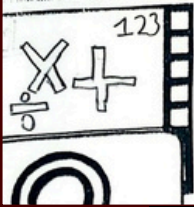

MUHAMMAD KHUZAIMA

CLASS 4 - D

Math concept that I like the most

Multiplication is my favorite concept in maths. It is one of the main elements of mathematics that simplifies calculation and avoids repeated addition. With the help of multiplication, we can quickly find product of numbers. To be an expert in multiplication, learning times tables by heart is essential. This helps us with quick calculation for example, revising five times table on a clock over all maths concepts are enjoyable but I like multiplication more because it stands out as a particularly easy and useful concept.

SALAAR AMAN KHAN

Quran

Learning Quran is my favorite thing. The Quran has lesson of the life. Every verse I learn makes me feel closer to Allah. My teacher explains the meaning in simple words. I write down what I learn to remember it later. When I listen Quran's translation I get more about it. Quran revealed in Ramadan. In the Quran there are so many Surahs. When we recite the Quran shaitan runs away. In our class there are so many Qurans. Surah Adiyat is my favourite surah. In Adiyat, I have learnt about horses. Surah Az-Zilzala tells us about the life after death.

KANWAR ABDUL WASAY

I love to do experiments!

I love to study science because in science we experiment and I like to experiment things. We study interesting chapters like solid, liquid and other chapters. Scientists study science then they do experiments on animal and human bodies. Scientists discover things and look at them very carefully. They make medicines from animal things. Scientist has the ability to solve the problem and invent many things.

MUHAMMAD ANNUS MAJID

الشوق والرغبة

HAMDAN MUNIR

MESSAGE FROM THE CLASS

TEACHER 4 - E

Over the course of our journey together, I have witnessed incredible growth and development in my students. Each one has brought their unique strengths and challenges to the classroom, creating an environment full of energy, learning, and inspiration. Some have excelled in academics, demonstrating remarkable skills in subjects like math and science, while others have shone in sports and extracurricular activities. Many have worked diligently to improve their handwriting, language skills, and overall behaviour, showing great determination and resilience. It has been a privilege to guide them, celebrate their achievements, and support them through their struggles. Watching them grow, learn, and transform has been one of the most rewarding experiences of my life, and I am confident they will continue to achieve greatness in all they do.

With love,
Zaeema Ali

Not seen in the Picture: Saim Atif Gaba

CLASS 4 - E

Loss of Interest

When I study Maths, I don't find it interesting and helpful in my life. We have modern calculators in our mobile phones and we have scientific calculators. So what is the reason of doing long question and solve fractions. But some Maths is helpful also because there is subtraction and addition in our daily lives. It is a little helpful when we don't have calculators. In business there is also Maths. So I think when I grow up I will build my interest in Maths Inshaallah.

MUHAMMAD HASSAAN

My interest is to learn about the Earth.

MAHAD SHAFQAT

Interesting symmetry

In class 1, I did symmetry first time. It was easy at the first time, then it started getting more and more tricky, so I become faster in solving it. I have a smart idea. The idea was to turn the copy in diagonal way. Sometimes it's easy and sometimes hard, I miss it when it's finished. I love doing symmetry.

ABDULLAH AZEEM

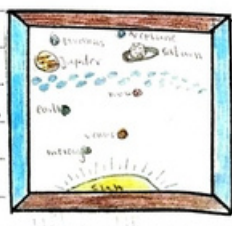

الزينة في العمرة
أحب وأرى في زيارته الأماكن المقدسة وعجائبها
المكرمة - أريد أن أشتري أن أذهب إليها لأداء
العمرة. أريد أن أشتري كتيبة لزيارة الكعبة وأريد أن أشتري
منها ما زلت أشتري. أشتري نفسي أنا وأشتري نفسي
الأفكار ونفسي في الفسحة الفخمة ونفسي إلى عود
القرآن الكريم
أنا أؤمن بالله كل يوم أن يوزعني فرصة أداء
العمرة - العمرة حلم جميل وأنتى إلى الحقيقة
يوماً ما.

CLASS 4 - E

SPACE The planets

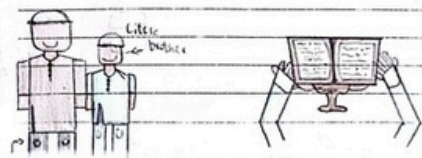

Space is a vast vacuum of stars and planets. Its called "Space" for a reason. I'm here to talk about how the planets got their names. In greek mythology there are gods like the god of the sky, stars, water and etc. So each planets name was named after one, except Uranus. Uranus wasn't named after a god. It was probably because Uranus is stinky. The probably thought it would be bad to name a stinky planet after a powerful god.

HALYAN HUSSAIN

Theme: Interest Topic: My Sibling

My interest is in helping others because of that I will get good deeds. I help my mother putting grocery at it's place and clean the house. I help my younger brother in countings, saying different new words and praying salah by calling him to join me when I pray salah and when he comes to me he copies me praying salah. I also teach him saying words from Arabic language and also Quran.

AHNAF AHMED KHAN

Our Planet Earth

Our planet earth is the most beautiful planet in the entire solar system. It also has life and it has a lot of plants and trees with different animals. There are lots of countries and cities too. It has its own gravity and it is the third planet of our solar system. Our earth has mountains and there are hot volcanoes. It has a small moon also. It is a planet that has tsunami, tornadoes and floods. Our beautiful earth has hot deserts, cold and winter places with large mountains. We should take care of our earth by not polluting it and we should keep it safe.

ABU BAKAR REHMAN

Reflections

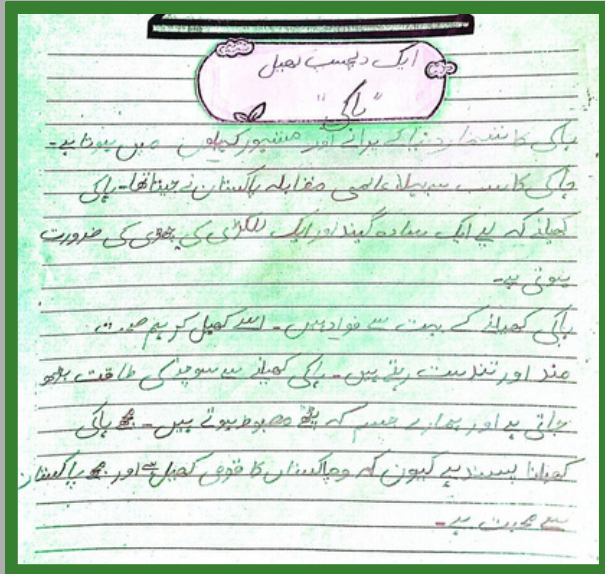

This is my school Reflections and I study here. I like my school a lot. Let's take a look at the school. On the ground floor, as you enter, there is a huge library with lots of interesting books on different subjects. Near the stairs is a small principal's office. On the first floor, there is a huge door leading to the cafeteria. In the cafeteria, a lot of exhibitions and events like the spelling competitions, break fast morning declamation are held. On the 2nd floor, there is a art room, science lab and a gymnasium. On the roof, there is a special place where we do gymnastics and taekwondo.

I like this school Reflections because it is the biggest of all in Korangi. It is also an interesting place to study.

ماہانہ کرائے

ہم دنیا میں ہر انسان کو کوئی نہ کوئی چیز ملتی ہے اور اسی طرح میں دھڑکیں پسند کرتا ہوں۔ اور ان سارے بنگار گھڑوں میں سے مجھے ماہانہ کرائے پر ملے زیادہ پسند ہے۔ ماہانہ کرائے میرا جدید کھلے کوٹاک ہے۔ ماہانہ کرائے میں کچھ بھی کر سکتا ہوں۔ جیسے کہ نئی بازی خریدنا یا نیا بنگار کرنا اور جنگ۔ ماہانہ کرائے پر عمر کے لوگوں کے لیے مناسب ہے۔

ماہانہ کرائے میں میں مسیحا، ۲۰۰۰ طرح استعمال کر سکتا ہوں۔ ماہانہ کرائے ایک حیرت انگیز ہے۔ جسے ہم جانور، سچ اور ضربہ سکے میں لادو، ہم جنگی جانور ایچوں کے ناموں جانور بنا سکتے ہیں۔ اب تک میرے پاس بالٹو کتا ہے اور ایک ایک گھوڑا اور ایک اور ایک والی بالٹو تم مجھے لگتا ہے کہ یہ گیم بہت اچھا ہے۔ اور ان کی صف بہت وسیع ہے۔

AYYAN BIN ABDULLAH

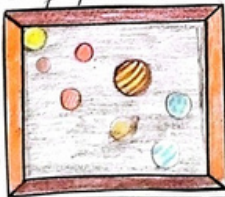

Amazing
Solar System

I find solar system most interesting in the world. In solar system there are planets, sun and asteroid belt. Mercury, Venus, Earth and Mars are closer to sun and they are called inner planets. Then there is an asteroid belt. After an asteroid belt there is Jupiter, Saturn, Uranus and Neptune. These planets are called outer planets. There is sun in the centre of our solar system. Saturn planet of our solar system has rings around it. The biggest planet of our solar system is Jupiter and the smallest is Mercury.

**SHAHEER UR REHMAN**

Solar system

I am interested in our solar system because I love planets and space-It interests me a lot. Our solar system is very big. In the centre of the solar system we have a big star called sun-It gives us heat light and energy. There are eight planets in the solar system. There was one more planet but it is not a planet at all it is called pluto. There are asteroids that hit the Earth at times. Comets are outside of the solar system. Jupiter is the largest planet. It was almost the size of a star but it is not big enough. Mercury is the smallest planet in the solar system but it is not the hottest planet because venus is the hottest. Mars is known as the red planet. Saturn has a beautiful rings around it made up of ice and dust. Earth is the only planet where life exist. Neptune is the farthest and the coldest planet in our solar system.

SAIM ATIF GABA

I really enjoy painting in my free time. I love to paint.

I was 7 years old when I realized that painting is fun. I can draw a picture and paint it with different colors to make it look amazing. By painting I learned that by mixing two colours I can make a new colour. I feel nervous because I don't know how my painting will turn out to be. Sometimes I feel happy and sometimes I feel disappointed. Most of the time I like to paint animals and birds. My mother loves my paintings. She likes to frame it and put it in my room.

I like to share my paintings with my friends.

A drawing of a painting easel with a landscape scene, a palette with various colors, and a paintbrush. The easel is on a stand and holds a canvas with a yellow sun and a blue sky. The palette is round and contains several colors. The paintbrush is red and is shown painting a green area. The background is decorated with flowers and leaves.

MESSAGE FROM THE CLASS

TEACHER 4 - F

"The journey of a thousand miles begins with a single step."

As I reflect on the year that has passed, I am amazed at how quickly time has flown. It feels as though it was just yesterday that we began this journey together in Grade 4, and now we're already looking back on a year filled with growth, learning, and cherished memories.

Many thanks to you for being diligent students. You were always mindful and ready to help your classmates. Throughout the year, we've shared countless memories, experienced many wonderful moments, and worked together as a team. I have watched you grow academically and in character and confidence. I hope, in some small way, what we have done together has shaped your path and prepared you for the bright future that lies ahead.

So much has happened this year, it is hard to remember everything, we embarked on a wonderful field trip. My heart swelled with pride as you achieved 2nd position in the Megathon Contest—a remarkable performance that shows your teamwork and talent. Your participation in the Hifz and Qirat competitions further displayed your dedication and spiritual commitment.

It is an honour for me to teach such talented boys, and I take pride in knowing that you are on the noble journey to becoming a future Hafiz-e-Quran Ma sha Allah! May Allah grant you strength, patience, and steadfastness to achieve this sacred goal. My dear students, always remember that learning is a lifelong journey. Strive for excellence, stay humble, and trust in Allah's plan.

May Allah bless you with success in all your endeavours, keep you steadfast in your faith, and guide you to be wise, and strong individuals.

**With all my best wishes and prayers,
Rujman Khan**

CLASS 4 - F

Be scared of the
Right Things.

What is fear? I will tell you about fears.

Fear means to be scared of something.

Every one is scared of one thing or the other.

I am scared of Allah's punishment. Allah

is very big and every muslim should fear him.

We should do good deeds, He will give us

reward. Allah (s.w.t) can do any thing He

wants. Everyone makes mistakes but

when they ask for Allah's forgiveness

he forgives them.

ABDULLAH ARSALAN

Horror Dreams

I am scared of horror dreams, every

night when I sleep I see in my dream

that I am walking in a street and I hear

a noise behind me but there is no one. When

I turn around a ghost is standing there and

he tries to Kill me.

I am Scared of white snakes because jinns

can transform into snakes. If we kill them they

will destroy us. When the night falls the tree

Score me, they have different shapes, sometimes

they look like faces of people. I love AI

CLASS 4 - F

My Favourite Subject

I enjoy doing maths because it provides valuable knowledge. Maths helps me calculate things quickly, even without a calculator. For example, when I'm shopping, I can check prices and make sure I am not being overcharged. Let's suppose I want to buy 50 biscuits that cost 10 units each. I can use Maths to calculate the total and tell the shopkeeper if they have made a mistake. Math is used in everyday things and it's a very important subject. Once you understand it, you can become a more intelligent person.

ABDULLAH FAHAD

Maths
An Interesting Subject

Math is an interesting subject. Let me tell you how. Math is used in football and many sports where we use Math to keep track of scores, team player and statistics. I use Maths in many areas of my life such as: counting my class mates and subjects, using numbers in every day activities, telling time and keeping track of dates, months and years. Maths gives me knowledge and helps me calculate and understand the world around me.

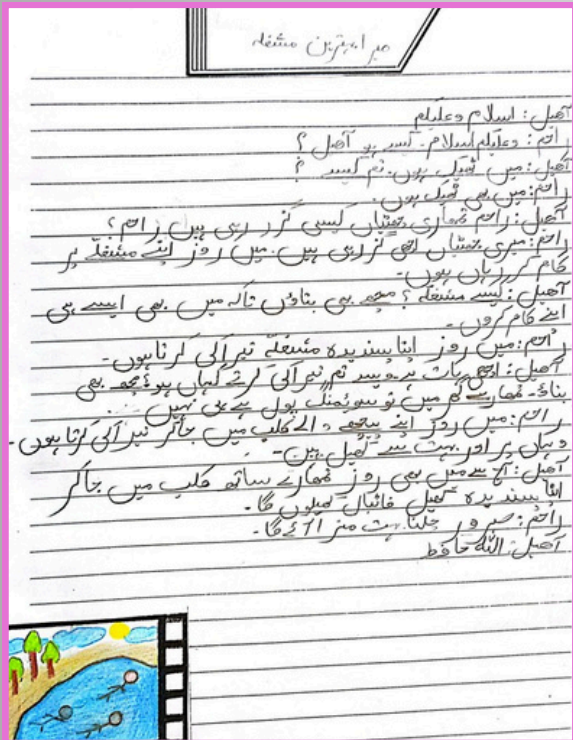

MUHAMMAD RAAHIM

If I were a
maths superhero

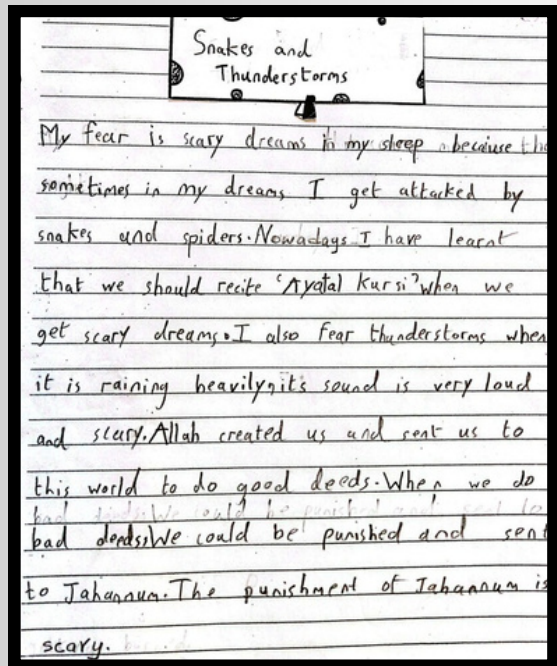

If I were a Maths superhero, my mission would be to save the world from mathematical nightmares. First, I would search for the math monster, grunting and trusting calculator, statistics and mathematics kit. Next, I'd study to find the places that need math help. With my crew, the math avengers, I would go to solve the problems we would use our math skills to defeat the enemy and make the world a better place. I would love being a math superhero because I'd use math to protect and save the world.

● Maths the Problem-Solving

Superhero

Maths is interesting because it is an essential tool for our daily lives. Whenever we face problems Maths comes to the rescue. Once I experienced this first hand when I wanted to give brownies to my classmates. I had 26 classmates and wanted to give each 3 brownies. To find out how many brownies I needed, I multiplied 26 by 3. The answer was 78. I was thrilled to discover that I needed 78 brownies. This experience showcased Maths power in solving everyday problems, making it truly captivating.

MUHAMMAD YASIN

A Writer (Interest)

My Favorite interest is to write stories. I has been my favorite since I was five years old. Francesca Simon and Tony Ross are the writers of my favorite book "Horrid Henry" which is hilarious. My dream is to be just like them. In fact, they are the best writers ever known. Anyways, I really adore writing about dinosaurs and Olden ages. Those are my favorite topics to write about. The reason behind me writing about dinosaurs is because since I was little I used to wear this dinosaur costume. And ever since all I thought was dinosaurs. I know all the name of the dinosaurs because they are one of my interests. Writing always were one of and it's one of my hobbies that always make me happy. Some people think that writing makes you look like a nerd, but it's not that. Writing is very important for you and it increases your knowledge. While you're writing a story, essay or whatever make sure to ask yourself some questions. Like for example, did I understand the passage? What was the story about? What were the setting of the story? Although I have many hobbies to choose over writing, I'd prefer writing any day. I would like to thank Francesca Simon and Tony Ross for inspiring me to write!

MOHAMMAD OMER KAMRAN SHAIKH

My Interest
Reading Quran

My favourite interest is reading Quran in my free time. I read it a lot. My feelings while reading Quran are very peaceful and relaxing. It is very important for us to recite Quran. Quran is Allah's holy book. Usually I read Quran every Friday, and in the salah we all recite it. Quran is loved by Muslims. It gives calmness all over the world. Quran is good with its translation. I read for our knowledge. Allah teaches some ayaats about Quran. My parents help me in memorizing Quran.
